M Brooks - Director

**Notes to the Financial Statements**  
**for the Year Ended 31 December 2021**

---

**1. Statutory information**

The Company is a private company limited by shares, incorporated in England and Wales. Its registered office is 5, Grange Court, The Limes, Ingatestone, Essex, CM4 0BE.

The company's principal business activity is that of insurance brokers.

**2. Statement of compliance**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006.

**3. Accounting policies**

**Basis of preparing the financial statements**

The financial statements have been prepared under the historical cost convention.

The financial statements are prepared in sterling, which is the functional currency of the entity.

**Turnover**

Turnover represents commission receivable on insurance policies issued by the company during the year.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Land and buildings	- 10% on cost
Plant and machinery etc	- 33% on cost and 15% on cost

**Taxation**

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**3. Accounting policies - continued**

**Leasing commitments**

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

**Pension costs**

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

**Going concern**

After making enquiries the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the financial statements.

**Insurance debtors and creditors**

The company acts as agent in broking the insurable risks of clients and normally is not liable as a principal for premiums due to underwriters or for claims payable to clients. Notwithstanding the legal relationship with clients and underwriters, the company has followed generally accepted accounting practice for insurance brokers by showing debtors, creditors and cash balances relating to insurance business as assets and liabilities of the company itself. This recognises that the company is entitled to retain the investment income on any cash flows arising from these transactions.

In the ordinary course of insurance broking business, settlement is required to be made with certain market settlement bureaux, insurance intermediaries or insurance companies on the basis of the net balance due to or from them rather than the amounts due to or from the individual third parties which it represents.

However, under FRS 102 Section 1A, assets and liabilities may not be offset unless net settlement is legally enforceable and, therefore, insurance debtors and creditors are shown gross within these financial statements.

**Investments**

Fixed asset investments are initially recorded at cost, and subsequently stated at cost less any accumulated impairment losses.

Listed investments are measured at fair value with changes in fair value being recognised in profit or loss.

**Government grants**

The company accounts for government grants on an accruals basis. During the year ended 31 December 2021, the company recognised grant income receivable from the UK Government's Coronavirus Job Retention Scheme and from the Local Authority Discretionary Grant Fund in other operating income.

**4. Employees and directors**

The average number of employees during the year was 7 (2020 - 8) .
