Notes to the Abbreviated Accounts for the Year Ended 31 August 2014

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of services, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings - 15% on reducing balance Motor vehicles - 25% on reducing balance

Computer equipment - 33% on cost

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. Deferred tax is not recognised when assets are revalued unless, by the balance sheet date, the company has entered into a binding agreement to sell the assets and recognised the gains and losses expected to arise on sale or where assets have been sold and it is expected that the taxable gain will be rolled over into a replacement asset.

Pension costs and other post-retirement benefits

The pension costs charged in the financial statements represent the contribution payable by the company during the year.

Leasing

Rental income from operating leases is recognised on a straight line basis over the term of the lease.

Investment property

Investment properties held as fixed assets are stated at open market value. Any aggregate surplus or deficit arising from changes in market value is transferred to a revaluation reserve.

Under the Companies Act 2006 all fixed assets should be depreciated over their estimated useful lives. However, in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), as the assets are not utilised in the ordinary course of the company's business and are held as investments, in order to give a true and fair view they are included in the financial statements at their open market value.
