1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The director has not paid attention to any particular period after the approval of the financial statements.

The company meets its working capital requirements through an overdraft facility which is repayable on demand. The company expects to continue to operate within its agreed facility. However, the margin of facilities over requirements is not large and inherently, there can be no certainty in relation to these matters.

On this basis, the director considers it appropriate to prepare the financial statements on the going concern basis. The financial statements do not include any adjustments that would result from a withdrawal of the overdraft facility by the company's bankers.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery etc

- 25% on reducing balance and 10% on reducing balance

Stocks

Work in progress is valued at the lower of cost and net realisable value.

Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.
