#### STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2015

#### **BUSINESS REVIEW**

I am delighted that the excellent progress reported in the year ended 31 March 2014 has been continued through to the year ended 31 March 2015.

The reorganisation of our trading divisions continues to be the success it promised to be and sets the blueprint for the current year and beyond.

In line with last year's trading statement, the group (currently headed by Lysander Place Group Limited and in the prior year headed by Lysander Place Holdings Limited) has not increased turnover over the last year, but has instead consolidated its position, concentrating on retaining contracts due for re tender and maximising profitability from on going works as a result of which profitability has increased.

During the year borrowings were reduced significantly and overheads continued to be monitored closely resulting in a marked improvement in the company's cash position.

During the year enquiries and tender opportunities have continued to increase and the group continues to be in a position to take advantage of the upturn in business opportunities.

Without doubt any organisation is only as good as its people and I commend the commitment, professionalism and loyalty displayed by everybody within the organisation. Whilst we continue to invest in apprenticeship schemes, to ensure there is a constant inflow of new talent, and have on going training throughout the organisation, skilled labour will be the biggest single challenge facing all divisions for the foreseeable future.

This report was approved by the board and signed on its behalf.

#### **DIRECTORS' RESPONSIBILITIES STATEMENT**

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2015

#### 1. ACCOUNTING POLICIES

#### 1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards.

#### 1.2 Cash flow

The company, being a subsidiary undertaking where 90% or more of the voting rights are controlled within the group whose consolidated financial statements are publicly available, is exempt from the requirement to draw up a cash flow statement in accordance with Financial Reporting Standard 1 (Revised 1996).

#### 1.3 Turnover

Turnover comprises the contract sales valuation (excluding VAT and trade discounts) of goods and services in the normal course of business.

Turnover represents the proportion of contract value applicable to the activity in the year, ascertained by reference to the costs incurred to date. These costs are matched with the turnover, resulting in the reporting of attributable profit proportionate to the contract activity.

Estimates of total contract costs and revenues are reviewed periodically and the cumulative effects of changes are recognised in the period in which they are identified. All known anticipated losses are provided for in full as soon as they are foreseen.

All costs incurred are recorded as cost of sales. Revenues recognised in excess of amounts billed are classified as accrued income and included in debtors. Where cash is received in advance of the contract valuation, the balance is recognised as part of creditors due within one year, as payments received on account.

#### 1.4 Operating leases

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

#### 1.5 Stocks

Stocks are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow-moving stocks.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2015

#### 1. ACCOUNTING POLICIES (continued)

#### 1.6 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

#### 1.7 Pensions

The company operates a defined contribution pension scheme and the pension charge represents the amounts payable by the company to the fund in respect of the year.

#### 1.8 Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

#### 2. TURNOVER

The whole of the turnover is attributable to the one principal activity of the company.

All turnover arose within the United Kingdom.

#### 3. OPERATING PROFIT

The operating profit is stated after charging:
