**Notes to the Financial Statements
for the year ended 31 October 2017**

1. Statutory information

Health Partners Europe Ltd. is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. Accounting policies

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Key source of estimation, uncertainty and judgement

The preparation of financial statements in conformity with generally accepted accounting practice requires management to make estimates and judgement that affect the reported amounts of assets and liabilities as well as the disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting period.

There is estimation uncertainty in calculating depreciation. A review of fixed assets is carried out by management regularly. Whilst every attempt is made to ensure that the depreciation policy is as accurate as possible, there remains a risk that the policy does not match the useful life of the assets.

There is estimation uncertainty in calculating bad debt provisions. A review of trade debtors is carried out at the end of each month. Whilst every attempt is made the bad debt provisions are as accurate as possible, there remains a risk that the provisions do not match the level of debts which ultimately prove to be uncollectable.

Turnover

Turnover represents net invoiced sale of services and commission received, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery	- 10% on cost
Fixtures and fittings	- 25% on reducing balance
Motor vehicles	- 25% on reducing balance
Computer equipment	- 25% on reducing balance

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Profit and Loss Account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Notes to the Financial Statements - continued
for the year ended 31 October 2017

2. Accounting policies - continued**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.
