**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of preparation of financial statements**

The financial statements have been prepared in accordance with applicable United Kingdom accounting standards, including Financial Reporting Standard 102 Section 1A smaller entities 'The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland' ('FRS102') and the Companies Act 2006.

**Revenue Recognition**

Turnover is measured at the fair value of the consideration received or receivable and represents amounts receivable services rendered, stated net of discounts and of Value Added Tax. When the consideration receivable in cash or cash equivalents is deferred, and the arrangement constitutes in effect a financing transaction, the fair value of the consideration is measured as the present value of all future receipts determined using an imputed rate of interest, normally the rate that discounts the nominal amount of consideration to the cash sales price. The company recognises revenue when the amount of revenue can be measured reliably, when it is probable that future economic benefits will flow to the entity.

**Property, plant & equipment**

Plant & machinery	-	15% straight line
Fixtures, fittings & equipment	-	25% straight line
Motor vehicles	-	25% straight line

On disposal, the difference between the net disposal proceeds and the carrying amount of the item sold is recognised in profit or loss, and included in other operating income.

**Stock**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Taxation**

A current tax liability is recognised for the tax payable on the taxable profit of the current and past periods. A current tax asset is recognised in respect of a tax loss that can be carried back to recover tax paid in a previous period.

Deferred tax is recognised in respect of all timing differences between the recognition of income and expenses in the financial statements and their inclusion in tax assessments.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference.

Current and deferred tax assets and liabilities are not discounted.

**Leasing and hire purchase**

Assets acquired under hire purchase contracts and finance leases are capitalised as tangible fixed assets. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives. Assets acquired under hire purchase are depreciated over their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit & loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

**Pensions**

Contributions to defined contribution plans are expensed in the period to which they relate.
