Barrie Knitwear Limited

Strategic report for the year ended 31 December 2015

Principal activities

The directors, in preparing this strategic report, have complied with s414c of the Companies Act 2006.

The principal activity of Barrie Knitwear Limited (the “Company”) is the manufacture of premium cashmere goods.

The directors do not believe that there will be any significant change in the Company’s activities for the foreseeable future.

Strategy and objectives

Our focus will continue to be the manufacture of premium cashmere garments for prestigious fashion houses and major designer brands.

Financial review and key performance indicators

The Board monitors the Company’s performance in a number of ways including key performance indicators. The key financial performance indicators together with the information for 2015 and 2014 are as follows:

	2015	2014
Turnover (£’000)	13,025	12,509
Gross margin %	27.4	33.2
Operating profit (£’000)	1,527	2,133

The turnover indicator represents what has been invoiced to customers in the year and measures sales growth or decline in value terms, with the higher value resulting from a better mix of customers and a significant growth in the product complexity and therefore higher selling prices.

The gross margin % is calculated by dividing gross profit by revenue and measures the total profitability of product sales.

Operating profit is the profit generated by the Company from trading operations, excluding foreign exchange gains and losses. This indicator measures the overall profitability of the business before interest charges and taxation.

Financial performance indicators are measured against budget and prior year results monthly and are re-forecast twice a year.

Profit and loss account

2015 has been another successful year for the Company, with a 4% increase in turnover despite the continued weakening of the Euro against Sterling. The Company continues to increase its strategic focus on manufacturing high quality goods with increased design complexity, along with continued investment in the development of the ‘barrie’ brand. This strategy has, in the short term, adversely affected both gross margin and operating profit however the directors expect significant gains to be realised from this strategy in 2016 and beyond, thus safeguarding the long-term future of the business.

Balance sheet

The Company reports a net assets position as at 31 December 2015 of £5,073k (2014: £4,603k). The increase is primarily due to the profit after tax in the year of £970k less a dividend of £500k paid in the year.

Barrie Knitwear Limited

Strategic report for the year ended 31 December 2015

Going concern and principal risks and uncertainties

The directors have performed an assessment of the financial performance and financial position of the Company and are satisfied that the business remains a going concern. The company made a profit before tax of £1,206k in 2015 (2014: £1,765k) and is forecast to make a similar profit in 2016. The Company has a strong balance sheet and a secure long-term loan from Chanel SARL, its ultimate parent company. Not only does Barrie Knitwear remain a key part of Chanel's RTW (Ready To Wear) cashmere manufacturing, 'barrie' is also a brand in its own right, as evidenced by the opening of two retail boutiques in 2014, alongside continued substantial investment in new plant and machinery.

The directors have considered the going concern assumption given the current economic climate and have formed the conclusion that there is reasonable expectation that the Company will continue to operate in the foreseeable future and will remain profit-making. The Company paid its' first ever dividend in 2015 and expects to make regular dividend payments in the future, supported by the underlying profitability of the business. The directors have considered the Company forecast and reasonable risks and sensitivity scenarios in forming this judgement.

Financial risks

The Company's activities expose it to a number of financial risks including credit risk, liquidity risk and foreign exchange risk:

Credit risk

The Company's principal assets subject to credit risk are cash, trade debtors and intercompany debtors. The Company's credit risk is primarily attributable to its trade debtors. The amounts presented in the balance sheet are net of allowances for doubtful debts. An allowance for impairment is made when there is a triggering event which, based on previous experience, is evidence of a reduction in the recoverability of the cash flows. Credit insurance is obtained in respect of trade debtors.

Liquidity risk

Sufficient funds for ongoing operations and future developments are ensured through a mixture of short and long-term intercompany funding and retained profits.

Foreign exchange risk

The Company's activities expose it to the financial risks of changes in foreign currency rates, most notably the Euro and US Dollar. The Company does not currently use foreign exchange forward contracts to hedge these exposures.

Barrie Knitwear Limited

Strategic report for the year ended 31 December 2015

Business risks

Industry competitors

Competitive pressure is a continuing risk for the company, which would result in it losing sales to its key competitors. The company manages this risk through retaining its high reputation in the marketplace and by maintaining strong relationships with external customers, which account for 40% of turnover.

High quality products and skill shortages

The company is reliant on the skills of its product development and manufacturing workforce, investment in up-to-date machinery and maintaining high focus on the quality of the Company's products. The Company manages the skills shortage risk by continually seeking to recruit and retain skilled trades-people and by operating its own training school for key skill manufacturing operations.

Approved by the Board of Directors and signed on behalf of the Board

S Wright

Director

24 March 2016

Barrie Knitwear Limited

Directors' report for the year ended 31 December 2015

Principal activities

The principal activity of the Company relates to the manufacture of premium cashmere goods. The directors consider the Company's trading for the year to be in line with expectations.

The financial position of the Company, together with the factors that are likely to affect its future development, performance and financial position are set out in the Strategic Report (on pages 2 to 4).

Results and dividends

Details of the results for the year are shown in the profit and loss account on page 8 and the related notes. An interim dividend of £500,000 was paid during the year (2014: £nil). The directors do not recommend the payment of a final dividend in respect of the current financial year (2014: £nil).

Directors

The directors who held office throughout the year and to the date of this report are set out on page 1.

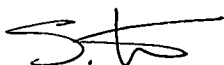

Statement as to disclosure of information to the auditor

Each of the persons who is a director at the date of approval of this report confirms that:

- so far as the directors are aware, there is no relevant audit information of which the Company's auditors are unaware; and
- the directors have taken all the steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of S418 of the Companies Act 2006. Deloitte have indicated their willingness to be reappointed for another term and appropriate arrangements for them to be deemed reappointed as auditor in the absence of an Annual General Meeting.

Approved by the Board of Directors and signed on behalf of the Board

S Wright
Director

24 March 2016

Barrie Knitwear Limited

Directors' responsibilities statement for the year ended 31 December 2015

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework. Under Company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF BARRIE KNITWEAR LIMITED

We have audited the financial statements of Barrie Knitwear Limited for the year ended 31 December 2015 which comprise the Profit and Loss Account, the Balance Sheet, the Statement of Changes in Equity and the related notes 1 to 23. The financial reporting framework that has been applied in their preparation is applicable law and Financial Reporting Standard 101 Reduced Disclosure Framework.

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2015 and of its profit for the year then ended;
- have been properly prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

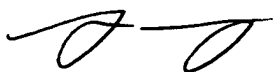

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Barrie Knitwear Limited

Notes to the financial statements for the year ended 31 December 2015

1. General information

Barrie Knitwear Limited is a Company incorporated in the United Kingdom under the Companies Act 2006. The address of the registered office is given on page 1. The nature of the Company's operations and its principal activities are set out in the Strategic Report on pages 2 to 4.

These financial statements are presented in pounds sterling because that is the currency of the primary economic environment in which the Company operates.

2. Significant accounting policies

Basis of accounting

The Company meets the definition of a qualifying entity under FRS 100 (Financial Reporting Standard 100) issued by the Financial Reporting Council. The financial statements have therefore been prepared in accordance with FRS 101 (Financial Reporting Standard 101) 'Reduced Disclosure Framework' as issued by the Financial Reporting Council.

As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard in relation to business combinations, financial instruments, capital management, presentation of comparative information in respect of certain assets, presentation of a cash-flow statement, standards not yet effective, impairment of assets and related party transactions. Where relevant, equivalent disclosures have been given in the group accounts of Chanel International BV. The consolidated financial statements for Chanel International BV are publicly available as described in note 23.

The financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for the assets. The principal accounting policies adopted are set out below.

Going concern

The Company's business activities, together with the factors likely to affect its future development and position, are set out in the Strategic Report on pages 2 to 4.

The Company is expected to continue to generate positive cash flows on its own account for the foreseeable future.

On the basis of their assessment of the Company's financial position and of the enquiries made of the directors of Chanel International BV, the Company's directors have a reasonable expectation that the Company will be able to continue in operational existence for the foreseeable future. Thus the Company continues to adopt the going concern basis of accounting in preparing the annual financial statements.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods provided in the normal course of business, net of discounts, VAT and other sales-related taxes. Revenue from the sale of goods is recognised when all the following conditions are satisfied: the Company has transferred to the buyer the significant risks and rewards of ownership of the goods; the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold; the amount of revenue can be measured reliably; it is probable that the economic benefits associated with the transaction will flow to the entity; and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Leases

Rentals payable under operating leases are charged to income on a straight-line basis over the term of the relevant lease.

Barrie Knitwear Limited

Notes to the financial statements (continued) for the year ended 31 December 2015

2. Significant accounting policies (continued)

Foreign currencies

Transactions in currencies other than the Company's functional currency (foreign currencies) are recognised using the rate of exchange ruling at the date of the transaction. At each balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing at that date.

Exchange differences are recognised in interest payable and other expenses.

Retirement benefit costs

Payments to defined contribution retirement benefit schemes are charged as an expense as they fall due.

Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited in other comprehensive income, in which case the deferred tax is also dealt with in other comprehensive income.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Barrie Knitwear Limited

Notes to the financial statements (continued) for the year ended 31 December 2015

2. Significant accounting policies (continued)

Property, plant and equipment

Land and buildings held for use in the production or supply of goods or for administrative purposes are stated in the balance sheet at historic cost less depreciation and impairment losses.

Freehold land is not depreciated.

Fixtures and equipment are stated at cost less accumulated depreciation and any recognised impairment loss.

Depreciation is recognised so as to write off the cost or valuation of assets (other than land and properties under construction) less their residual values over their useful lives, using the straight-line method, on the following bases:

Buildings	3%
Fixtures & Fittings and Plant & Machinery	12% - 25%

The gain or loss arising on the disposal or scrappage of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in income.

Patents and trademarks

Patents and trademarks are measured initially at fair value and are amortised on a straight-line basis over their estimated useful lives.

Goodwill

Goodwill arising from an acquisition is recognised as an asset at the date that control is acquired (the acquisition date). Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest (if any) in the entity over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

Goodwill is not amortised over a finite life but is reviewed for impairment at least annually. This is a departure from the requirements of the Act, taken in order to provide a true and fair view of the goodwill position in accordance with FRS 101.

Impairment of tangible and intangible assets

At each balance sheet date, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. An intangible asset with an indefinite useful life is tested for impairment at least annually and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Barrie Knitwear Limited

Notes to the financial statements (continued) for the year ended 31 December 2015

2. Significant accounting policies (continued)

Impairment of tangible and intangible assets (continued)

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Investments

Fixed asset investments are shown at cost less provision for impairment when identified.

Stocks

Stocks are stated at the lower of cost and net realisable value. Cost comprises direct materials and (where applicable), direct labour costs and those overheads that have been incurred in bringing the stocks to their present location and condition. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

Financial instruments

Derivative financial instruments

The Company does not enter into derivative financial instruments.

Loans and receivables

Trade receivables, loans, and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

Impairment of financial assets

Financial assets are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected. For all other financial assets objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Company's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment is the differences between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account.

Barrie Knitwear Limited

Notes to the financial statements (continued) for the year ended 31 December 2015

2. Significant accounting policies (continued)

Financial Instruments (continued)

Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in the profit or loss account.

Derecognition of financial assets

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Financial liabilities and equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

Financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the Company's accounting policies

The following are the critical judgements and sources of estimation uncertainty that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in financial statements.

Impairment of goodwill and intangible assets

During the year, management considered the recoverability of goodwill and intangible assets. These assets continue to be used

Sensitivity analysis has been carried out and management is confident that the carrying amount of these assets will be recovered in full. This situation will be monitored, and adjustments made in future periods if future market activity or business decisions indicates that such adjustments are appropriate.

Barrie Knitwear Limited

Notes to the financial statements (continued) for the year ended 31 December 2015

3. Critical accounting judgements and key sources of estimation uncertainty (continued)

Impairment of stocks

Inventories are valued at the lower of average cost and net realisable value. Cost comprises direct purchase cost and those labour costs and overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price less all estimated and directly attributable costs of completion and costs to be incurred in the marketing, selling and distribution. Net realisable value includes, where necessary, provisions for slow-moving and damaged inventory. The provision represents the difference between the cost of stock and its estimated net realisable value. Calculation of these provisions requires judgements to be made which include forecast customer demand, the promotional, competitive and economic environment and inventory loss trends.

4. Turnover

All of the Company's turnover is generated from the sale of goods.

An analysis of the Company's turnover by geographical market is set out below.

	2015 £'000	2014 £'000
Turnover:		
France	9,543	8,896
United Kingdom	919	1,263
Other European	436	745
USA	458	921
Rest of World	1,669	684
	<u>13,025</u>	<u>12,509</u>

5. Profit on ordinary activities before taxation

Profit for the year has been arrived at after charging/ (crediting):

	2015 £'000	2014 £'000
Operating lease charges:		
Land and buildings (note 20)	8	8
Depreciation of tangible fixed assets (note 11)	344	204
Amortisation of purchased intangible assets (note 10)	18	18
Cost of stock recognised as expense	9,454	8,454
Net change in stock write-down provision	(247)	(64)
Staff costs (note 7)	<u>5,386</u>	<u>4,714</u>

The prior year figures have been restated in respect of cost of stock recognised as expense and the net change in stock write-down provision. The overall balance remains consistent with prior year, but the split has been restated in order to more accurately reflect the prior year movement.

6. Auditor's remuneration

Fees payable to Deloitte LLP and their associates for the audit of the Company's annual accounts were £28,750 (2014: £27,500).

Fees payable to Deloitte LLP and their associates for non-audit services to the Company were £7,400 (2014: £6,150), all in relation to tax compliance.

Barrie Knitwear Limited

Notes to the financial statements (continued) for the year ended 31 December 2015

7. Staff costs

The average monthly number of employees (including executive directors) was:

	2015 Number	2014 Number
Manufacturing	222	204
Admin and sales	13	11
	<u>235</u>	<u>215</u>

Their aggregate remuneration comprised:

	2015 £'000	2014 £'000
Wages and salaries	4,760	4,158
Social security costs	385	339
Defined contribution pension costs	241	217
	<u>5,386</u>	<u>4,714</u>

The directors of the Company received no remuneration in respect of any services to the Company in the year (2014: £nil).

8. Interest payable and similar charges

	2015 £'000	2014 £'000
Interest expense relating to group borrowings (note 16)	94	94
Loss on foreign exchange	227	274
	<u>321</u>	<u>368</u>

The balance in relation to loss on foreign exchange has been re-stated in the prior year, having been re-allocated from administrative expenses to interest payable and similar charges.

Barrie Knitwear Limited

Notes to the financial statements (continued) for the year ended 31 December 2015

9. Tax on profit on ordinary activities

	2015 £'000	2014 £'000
Current tax - United Kingdom corporation tax		
Current tax on profits for the year	235	358
Adjustment in respect of prior years	(4)	1
Total current tax	<u>231</u>	<u>359</u>
Deferred tax – see note 17		
Current year	10	21
Adjustment in respect of previous periods	6	-
Effect of changes in tax rates	(11)	(1)
Total deferred tax	<u>5</u>	<u>20</u>
Total tax charge for year recognised in profit and loss account	<u><u>236</u></u>	<u><u>379</u></u>

Reconciliation of tax charge

The UK corporation tax rate for the period was 21% for the period up to 31 March 2014 and 20% thereafter. The difference between the total current tax shown above and the amount calculated by applying the standard rate of UK corporation tax to the profit before tax is as follows:

	2015 £'000	2014 £'000
Profit on ordinary activities before taxation	<u>1,206</u>	<u>1,765</u>
Tax on profit on ordinary activities at 20.25% (2014: 21.5%)	244	379
Effects of:		
Expenses not deductible for tax purposes	1	-
Tax rate changes	(11)	(1)
Adjustment in respect of prior years	2	1
Tax charge for the year	<u><u>236</u></u>	<u><u>379</u></u>

Barrie Knitwear Limited

Notes to the financial statements (continued) for the year ended 31 December 2015

10. Intangible Assets

	Goodwill £'000	Patents and trademarks £'000
Cost		
At 1 January 2015 and 31 December 2015	495	90
Amortisation		
At 1 January 2015	-	(40)
Charge for the year	-	(18)
At 31 December 2015	-	(58)
Carrying amount		
At 31 December 2015	495	32
At 1 January 2015	495	50

The goodwill balance relates to the acquisition of the trade and assets of Barrie Knitwear from Dawson International Trading Limited on 16 October 2012. Goodwill is capitalised and has an indefinite life. It is not being amortised but is subject to annual impairment review. To date no goodwill has been impaired.

The annual impairment review is based on a value in use calculation using cash flow projections. The main assumptions are:

Growth rate from year 2: 3.0%

Discount rate: 8.9%

The growth rate is based on UK long-term forecast GDP.

The discount rate applied to cash flows are based on the Group's weighted average cost of capital with a risk premium reflecting the relative risks in the markets in which the businesses operate.

Sensitivities

A sensitivity analysis had been performed on each of the base case assumptions used for assessing the goodwill with other variables held constant. The directors have concluded that there are no reasonably possible changes in any key assumption which would cause the carrying amount of goodwill to exceed its value in use.

Patents and trademarks are amortised over their estimated useful lives, which is on average four years.

Barrie Knitwear Limited

Notes to the financial statements (continued) for the year ended 31 December 2015

11. Tangible Fixed Assets

	Freehold land and buildings £'000	Plant and machinery £'000	Fixtures and Fittings £'000	Total £'000

Other debtors	72	70
	<u>2,048</u>	<u>2,624</u>

15. Trade and other payables

	2015 £'000	2014 £'000
Trade creditors	1,032	2,426
Amounts owed to group undertakings	183	29
Taxation and social security	162	121
Corporation tax	115	153
Accruals	340	631
	<u>1,832</u>	<u>3,360</u>

Barrie Knitwear Limited

Notes to the financial statements (continued) for the year ended 31 December 2015

16. Borrowings due after more than one year

	2015 £'000	2014 £'000
Amounts owed to group undertakings	2,300	2,300

In 2013 the Company entered into a loan agreement with Chanel SARL for an amount of £2.3m. This is repayable on 27 February 2018 and interest accrues at 4.1% pa.

17. Deferred tax liability

	Deferred tax £'000
At 1 January 2015	90
Adjustment in respect of prior years	6
Deferred tax charge for the period	(1)
At 31 December 2015	95

The following are the major deferred tax liabilities and assets recognised by the Company.

	2015 £'000	2014 £'000
Fixed assets	100	96
Accrued pension	(5)	(6)
	95	90

18. Share capital

	2015 £'000	2014 £'000
Authorised:		
2,271,046 ordinary shares of £1 each	2,271	2,271
Issued and fully paid:		
2,271,046 ordinary shares of £1 each	2,271	2,271

The Company has one class of ordinary shares which carry no right to fixed income.

Barrie Knitwear Limited

Notes to the financial statements (continued) for the year ended 31 December 2015

19. Profit and loss account

	2015 £'000	2014 £'000
Balance at 1 January	2,332	946
Profit for the year	970	1,386
Dividends paid	(500)	-
Balance at 31 December	<u>2,802</u>	<u>2,332</u>

20. Operating lease arrangements

	2015 £'000	2014 £'000
Lease payments under operating leases recognised as an expense in the year	<u>8</u>	<u>8</u>

At the balance sheet date, the Company had outstanding commitments for future minimum lease payments under non-cancellable operating leases, which fall due as follows:

	2015 £'000	2014 £'000
Within one year	4	8
In the second to fifth years inclusive	<u>-</u>	<u>4</u>

Operating lease payments represent rentals payable by the Company for its factory premises in Arbroath. This lease ends in 2016.

21. Retirement benefit schemes

Defined contribution schemes

The Company operates a defined contribution retirement benefit scheme for all qualifying employees. The assets of the scheme are held separately from those of the Company in funds under the control of trustees.

The total cost charged to the profit and loss account of £241,112 (2014 £217,345) represents contributions payable to these schemes by the Company at rates specified in the rules of the plans.

22. Related party transactions

The Company has taken advantage of the exemption granted by paragraphs 8(j) and 8(k) of FRS101 not to disclose all transactions with wholly-owned Arnam SARL group companies.

In the year Barrie Knitwear entered into transactions with NFP to the value of £243,856 (2014: £144,525). NFP is a Company owned and managed by director Bruno Pavlovsky's wife, Nathalie Pavlovsky. NFP provide marketing and brand-building services to the Company as part of the ongoing development of the 'barrie' brand. Prices are agreed through discussions with directors of Chanel France, who are not directors of Barrie Knitwear Limited, nor are they a shareholder in, or related to any person in NFP. As at the 31 December 2015 the amount outstanding to NFP was £nil (2014: £nil).

Barrie Knitwear Limited

Notes to the financial statements (continued) for the year ended 31 December 2015

23. Controlling party

The Company's immediate parent Company is Chanel International BV, a Company incorporated in the Netherlands. Chanel International BV produces consolidated financial statements which include the results of the Company. The consolidated financial statements for Chanel International BV are available from Companies House, Crown Way, Cardiff, CF14 3UZ. The directors regard the Company's ultimate parent Company and the largest group of which it is a member for which group accounts are drawn up to be Arnam SARL, a Company incorporated in Luxembourg. The consolidated financial statements for Arnam SARL are available from Companies House, Crown Way, Cardiff, CF14 3UZ.
