### **Trustees' Annual Report (Incorporating the Director's Report) (*continued*)**

**Year ended 30 September 2020**

#### **Structure, governance and management**

##### **Governing document**

The organisation is a charitable company limited by guarantee, incorporated on the 1st June 1999 and was registered as a charity after that on the 11th August 1999. The company was established under a Memorandum of Association which established the objects and powers of the charitable company and is governed under its Articles of Association. In the event of the company being wound up members are required to contribute an amount not exceeding £10.

##### **Recruitment and appointment of new trustees**

The directors of the company are also charity trustees for the purposes of charity law and are also members of the management committee. Under the requirements of the Memorandum and Articles of Association, the trustees serve a period of three years before being required to be re-elected.

Trustees are recruited from across the community in Dorset to give the charity the benefit of experience and knowledge in a wide range of relevant areas. It is essential to the company to have a range of skills available to keep the organisation focused on business operations and opportunities, as well as ensuring our focus on our objectives.

All members of the Management Committee give their time voluntarily and received no benefits from the charity.

The company developed a recruitment and retention policy in 2009 to assist with work relating to new trustees and committee members and have revised this on an annual basis to ensure it is still fit for purpose. Although most would-be trustees and members of the management committee are already familiar with our work, on appointment an induction programme provides tours of the four sites, together with a detailed briefing by the Chairman and the CEO covering all aspects of the charity's work, together with the legal obligations relating to their position. New members are also given a copy of The Charity Commission's publications relating to their role.

##### **Organisational structure**

The charity is formally governed by a management committee which is currently made up of 6 trustees and 3 other individuals from very diverse backgrounds representing those with a strong interest in the local community. The management committee meets bi-monthly to discuss the running of the charity, with the CEO and Depot Managers also in attendance to provide a full report of activities undertaken.

In addition, the Finance sub group, set up to deal with the financial control, budgets, proposed developments and fund raising, also meets three times each year

The CEO has delegated responsibility for the day to day running of the company which includes the key issues of organisational matters, staff and finance. A management team meeting takes place on a bi-monthly basis to ensure all depots and aspects of the charity run to the highest standard.

# **Dorset Reclaim**

## **Company Limited by Guarantee**

### **Trustees' Annual Report (Incorporating the Director's Report) (*continued*)**

**Year ended 30 September 2020**

#### **Structure, governance and management (*continued*)**

##### **Wider network**

Dorset Reclaim is part of the Reuse Network, the national parent body for independent furniture reuse organisations, who provide advice and guidance on current issues.

Regionally, we did belong to the Dorset Reuse Forum which involves other projects in the county together with local authorities and other interested organisations to share good practice and discuss relevant legislation and guidance but this group has now formally ended as the other charities that operated in the area have closed. In addition, we are represented at other local meetings involving partner agencies and other third sector organisations working across Dorset.

##### **Related parties**

As well as the trustees listed on page 1, the other members of the committee, listed on page 1, are regarded as being related parties.

Details of transactions with the related parties are in note 26 to the financial statements.

##### **Risk management**

The trustees have a duty to identify and review the risks to which the charity is exposed and to ensure appropriate controls are in place to provide reasonable assurance against fraud and error.

The management committee has conducted its own review of the major risks to which the charity is exposed and systems have been established to mitigate those risks. The business plan has also focused the management committee and officers on risk management, as well as other essential areas. A 5 year business plan has been adopted which will continue with the practice of 6 monthly reviews to ensure the organisation is focused and on track, although with changes to the commercial environment of such magnitude over the last year, substantial amendments will be considered in the new year.

Internal risks are minimised by the implementation of set procedures for authorisation of all transactions and projects to ensure consistent quality of delivery for all operational aspects of the charitable company. These procedures are periodically reviewed to ensure that they still meet the needs of the charity.

##### **Objectives and activities**

The charity runs a furniture and appliance reuse business operating across Dorset and south west Hampshire with depots in Bournemouth, Poole and Dorchester together with an engineering branch for refurbishing large electrical goods in Christchurch. Its principal aims are to:

- provide good quality furniture, electrical goods and household items to families and individuals on low incomes;
- provide enjoyable volunteering and training opportunities to help people develop their work and social skills;
- encourage reuse in the community and prevent items going to landfill.

# **Dorset Reclaim**

## **Company Limited by Guarantee**

### **Trustees' Annual Report (Incorporating the Director's Report) (*continued*)**

**Year ended 30 September 2020**

#### **Objectives and activities (*continued*)**

##### **How our activities deliver public benefit**

The trustees believe that the charity meets the public benefit requirements and have complied with the duty in section 4 of the Charities Act 2011.

Our main activities and who we try to help are described below - all our activities focus on the re-use and recycling of household items and the related social benefits that follow from that initial activity.

##### **Volunteers**

One of the organisation's principal aims is to encourage and provide opportunities for volunteering in a range of activities. When considering the year's activities, it is impossible not to consider the value to the project of the volunteers.

On average there will be between 15 - 25 volunteers working each day over the four sites for Dorset Reclaim in a range of jobs, to the extent that most people who come into contact with us on a daily basis, either in person or by telephone, will be assisted by volunteers rather than paid staff. Volunteers fill roles in driving our vans, the collection and delivery teams, warehouse work, administration and reception, as well as specialist practical areas such as woodworking and electrical engineering.

Volunteers are actively recruited from a very wide variety of backgrounds including those currently not in work or education, recovering from addiction, experiencing or recovering from a period of ill health or those simply with time on their hands. The current age range is from 19 - 91 years. This diverse mix of ages and backgrounds provides a rich resource for the project. Training is given in various fields and individuals are encouraged to gain additional skills where appropriate.

On average over 725 hours of time are donated by volunteers each week, compared to an average of 650 hours of staff time, which allows the charity to operate at its current level. Although it would be difficult to quantify their contribution in financial terms, without the volunteers, Dorset Reclaim would cease to be viable and unable to provide its services to the local community.

In return, Dorset Reclaim provides a stepping-stone for their future. Since conception, there have been nearly 7,000 volunteers who have worked with the project, with many known to have moved on to paid employment or further training & education, as appropriate to their individual circumstances.

# **Dorset Reclaim**

**Company Limited by Guarantee**

**Trustees' Annual Report (Incorporating the Director's Report) (*continued*)**

**Year ended 30 September 2020**

## **Objectives and activities (*continued*)**

### **Work programmes and placements**

In the past, we have been involved with provision of work placements through the regional agencies chosen by government to deliver training and prepare people for work. This meant individuals undertook sessions with us in a variety of roles, in different locations and for varying lengths of time ranging from 4 weeks to 6 months. This enabled the individuals to learn new skills and gain qualifications and a reference for the future, as well as helping the charity deliver its services to the local community.

We have recently applied to be part of the new Kickstart scheme announced by the government back in July: at the time of writing we are awaiting to hear if we have been successful although we believe there have been significant changes to the overall programme which may bring a lessened chance of success. We hope we will be taking on 30 young people in the next year if given approval.

We also have volunteers working with us who may be placed by Probation Services and other statutory agencies where the benefits of regular work activity are good for the charity, the community as well as the individual.

### **Provision of household goods to clients**

From our depots in Bournemouth, Poole & Dorchester, we satisfy our original aim of offering good quality second hand items of furniture, household goods and electrical items, to local people who are on a low income. Whether working part time because of family commitments, in a full time but relatively low paid job, retired on a state pension, or in receipt of a means tested benefit, we aim to assist anyone who is in need of help to furnish their home.

In April 2017 the charity introduced a fundamental change by opening its doors to the general public for the first time. This was done to help reuse more items that we are being offered, increase the awareness of the charity and gently increase sales. By doing so, we have fallen into line with most other reuse charities and run a two-tier pricing system whereby our original target group of low income families still benefit from low prices.

In the last financial year, we have distributed over 7,300 items to local customers who benefitted from this approach, over 2,000 less than last year as a consequence of national lockdowns.

Our aim is to ensure that those who need us have access to quality, tested items from a reliable source, who can also provide a delivery and installation service at low cost where needed. The charity is self funding, so charges a low amount for items provided as they are our primary source of income. We work closely with local statutory agencies, such as local councils, as well as housing associations and other local charities that refer many of their clients to us.

# **Dorset Reclaim**

## **Company Limited by Guarantee**

### **Trustees' Annual Report (Incorporating the Director's Report) (*continued*)**

**Year ended 30 September 2020**

#### **Objectives and activities (*continued*)**

Over the years, we have developed partnerships with three local authorities as a result of the welfare changes. We help deliver welfare assistance in terms of essential household items, such as cookers and beds - these are paid for by the local authority replacing the awards of cash previously made by the DWP.

Changes to central government funding as expected mean that only one scheme continues at previous levels obviously impacting on the volume of work we do. We have built in predicted changes to our budget forecasts for future years to accommodate the changes.

#### **Collection services**

We offer a free collection service to residents across a wide geographical area covering the whole of Dorset and the western edge of Hampshire, from Bridport in the west to the towns and villages of the New Forest in the east who are able to offer good quality donations of household items. Each of the 3 depots collected from nearly 3,000 households in the course of this year, again less than last year due to disrupted services. Although the items themselves are "too good" to be dumped, very often the necessity of a quick removal, friends or family unable to help, or a lack of space, forces the hand of the householder - this is where our free collection service can make the difference.

#### **Education and promotion regarding reuse**

As an integral part of our work, we run a small programme throughout the summer months promoting the reuse of household & other goods. Attendance at local shows and events highlights the issues around reuse & recycling and promotes our services locally to those who may need them. This part of our work is often carried out in partnership with the local authorities in Dorset together with other groups.

We also give a range of presentations to other re-use groups, charities who are interested in the role we play and organisations, such as the MoD and local businesses, local church and community groups, all of which raises both the profile of the charity and the benefits of reuse.

#### **Achievements and performance**

##### **Principal funding sources**

Dorset Reclaim's principal funding source is the sale of donated items to families and individuals on low incomes. The prices asked for individual items are very low in response to our knowledge of our clients' limited means and in furtherance of our charitable objectives - as a result we owe our financial existence to the sheer volume of goods coming through our hands in any one year.

# **Dorset Reclaim**

## **Company Limited by Guarantee**

### **Trustees' Annual Report (Incorporating the Director's Report) (*continued*)**

**Year ended 30 September 2020**

#### **Achievements and performance (*continued*)**

The company has achieved overall sales of furniture and electrical goods of £595,481 a fall of just over £200,000 from the previous year, a consequence of the national lockdown in the spring and again in the autumn. The Christchurch depot has tried to keep up with the demand from our clients for good quality, guaranteed appliances, but has struggled with sourcing supplies of second hand goods as donations from households fall. Our electrical sales were £117,719, a fall of over £50,000 from last year; this element of our work has continued to decrease due to the difficulty in obtaining raw stock as stated but also due to lockdown. We try to budget for a small number of new items sourced from the manufacturer to help us keep up with demand.

Out of the electrical/white goods that are donated from the public, Christchurch depot's main aim is to refurbish and reuse items either as complete machines or for parts. For those items we cannot reuse, they are sent for recycling.

The trustees are satisfied with these achievements bearing in mind the charity had to close for a third of the year and at its associated role in the reduction of hardship in the area by continuing to provide an emergency service in lockdown as a consequence of the Covid-19 pandemic.

#### **Other Sources of Income**

The charity successfully bid for the bulky household collection service tendered by the Dorset Waste Partnership in 2014. This work has continued very successfully and we have been awarded a further period until April 2022. This now represents a cornerstone of our work. Where goods are able to be reused, they are brought into general stock for redistribution, with the remainder being separated and recycled.

We have also begun to expand the on-line sales, both of parts from dismantled electrical items, such as washing machines & fridges as well as the more unusual donated items. In line with other charities we now offer retro/vintage and other items on social media platforms to help bring in monies to subsidise the main area of our work. We believe this will be a growing area for the future and have employed 2 people part time to grow income from on line sources.

Some local authority partners offer recycling credits based on the tonnage of furniture we have been able to reuse; although a comparatively small sum, it represents recognition that the work we do, contributes to the overall reduction in waste in the county with the monies used for the training of volunteers.

The charity introduced Gift Aid across all depots part way through 2008/09 and we continue to use this source of income and we are very grateful to those individuals that help us in this way. In the last few years we have seen our income from this source fall drastically and it is still a work in progress to try and increase income through gift aid, although with far fewer sales this year as a result of lockdown it was inevitably a challenge too far. Despite our plans to revisit our gift aid systems this year, plans were put on hold due to having to deal with the impact of Covid-19 and the related closure of our branches. Inevitably as a consequence of reduced sales, income from this source will be much less than hoped.

# **Dorset Reclaim**

## **Company Limited by Guarantee**

### **Trustees' Annual Report (Incorporating the Director's Report) (*continued*)**

**Year ended 30 September 2020**

#### **Financial review**

##### **Reserves policy**

The Trustees have a policy to strive to set aside 3 months running costs to safeguard the charity's position. This is a reduction on previous years (and is as a direct result of the impact of the fire in 2010) and was attained briefly in the current year due to the receipt of retail grants, though has now fallen due to the restrictions on trading.

The Trustees believe that the cash reserves should be at least at this level to ensure that the charity can run efficiently and safely to meet the needs of its beneficiaries. A careful watch and regular reviews take place.

The level of reserves is monitored and reviewed by the trustees every six months.

##### **Financial position**

Full utilisation of the charity's funds is set out in the accounts, most particularly in the Statement of Financial Activities on page 12. The level of reserves has also been realistically set as discussed above.

The fall in sales income is obviously not welcome but in line with many in these difficult times, the charity has made use of grants and the furlough scheme to protect itself and its staff.

We have received retail grants to set against lost income through local government and have successfully applied to a local Trust to enable Covid-19 related emergency work to continue. Both were lifelines in the spring. A small grant has helped provide free delivery and installation work in Dorchester and recent good news means that the long awaited mezzanine floor in Bournemouth depot may now be possible next year to provide more retail space to help us survive.

The loss of trading income has been a significant worry for the whole team and uncertainty for the future regarding lockdowns and the general financial health in our local communities is of great concern.

Although the management committee was looking forward to an improved performance this year, readjusted targets mean that we are simply pleased still to be trading and providing our services to those who need us.

##### **Plans for future periods**

This has been a year like no other. With the pandemic hitting us in the spring forcing a 3 month closure of our retail business, we wondered, no doubt along with many other charities, whether we would survive.

In planning a budget for our new financial year, no sooner was it published than we went into a second lockdown which has immediately caused a predicted loss of income of approximately £40,000. Without the benefit of retail grants this time, it will have a severe impact although we have not had to lay off any staff by using the furlough scheme.

# **Dorset Reclaim**

## **Company Limited by Guarantee**

### **Trustees' Annual Report (Incorporating the Director's Report) (*continued*)**

**Year ended 30 September 2020**

#### **Plans for future periods (*continued*)**

It would be safe to say that planning for the future has never been so unpredictable and the efforts of the staff and volunteers never so appreciated as they have been this year. We believe that with many facing continued financial hardship, and perhaps worse to come in the new year, the charity retains its relevance to the community and will, if anything, be met with even greater need.

We will continue to further develop sales to the general public, including on line sales, not only featuring second hand and vintage items but those one off donations that do not readily belong in our depots with proceeds being reinvested in the main work of the charity. We believe that this will continue to be an increasingly important income stream.

We stated last year that our branches are also looking to develop a more generally inviting retail feel rather than, at present, storage depots and this has been achieved in part. Poole depot is now the flagship in this respect with reception areas in the other depots improved as well. Ironically, it was lockdown that provided the opportunity for us to improve our branches just before we reopened to the public.

The Trustees remain pleased with past recruitment and feel they successfully addressed the issue of succession planning within the organisation, a key issue for many small charities. With the departure of Ray Tovey, the original Project Manager in 2018, it has meant a substantial change for all. Appointing the CEO from a long standing member of staff has given the continuity required in a period of change, along with the determination to continue our services with the help of a dedicated team.

One senior manager left due to family circumstances but with the impact of a second lockdown, further recruitment is being left until 2021.

It is our intention to retain our flexible approach and determination to maintain services to the local community to the best of our ability over the next 12 months despite such unpredictable times.

#### **Small company provisions**

This report has been prepared in accordance with the provisions applicable to companies entitled to the small companies exemption.

The trustees' annual report was approved on 7 December 2020 and signed on behalf of the board of trustees by:

Joanna Taylor  
Charity Secretary

A handwritten signature in black ink, appearing to be 'Joanna Taylor', written over a horizontal line.

## **Company Limited by Guarantee**

### **Independent Examiner's Report to the Trustees of Dorset Reclaim**

**Year ended 30 September 2020**

I report to the trustees on my examination of the financial statements of Dorset Reclaim ('the charity') for the year ended 30 September 2020.

#### **Responsibilities and basis of report**

As the trustees of the company (and also its directors for the purposes of company law) you are responsible for the preparation of the financial statements in accordance with the requirements of the Companies Act 2006 ('the 2006 Act').

Having satisfied myself that the accounts of the company are not required to be audited under Part 16 of the 2006 Act and are eligible for independent examination, I report in respect of my examination of the charity's accounts as carried out under section 145 of the Charities Act 2011 ('the 2011 Act'). In carrying out my examination I have followed the Directions given by the Charity Commission under section 145(5)(b) of the 2011 Act.

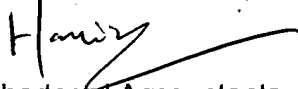

#### **Independent examiner's statement**

Since the charity's gross income exceeded £250,000 your examiner must be a member of a body listed in section 145 of the 2011 Act. I confirm that I am qualified to undertake the examination because I am a member of the Institute of Chartered Accountants in England and Wales (ICAEW), which is one of the listed bodies.

I have completed my examination. I confirm that no matters have come to my attention in connection with the examination giving me cause to believe:

1. accounting records were not kept in respect of the charity as required by section 386 of the 2006 Act; or
2. the financial statements do not accord with those records; or
3. the financial statements do not comply with the accounting requirements of section 396 of the 2006 Act other than any requirement that the accounts give a 'true and fair' view which is not a matter considered as part of an independent examination; or
4. the financial statements have not been prepared in accordance with the methods and principles of the Statement of Recommended Practice for accounting and reporting by charities applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102).

I have no concerns and have come across no other matters in connection with the examination to which attention should be drawn in this report in order to enable a proper understanding of the accounts to be reached.

**Company Limited by Guarantee**  
**Notes to the Financial Statements**  
**Year ended 30 September 2020**

**1. General information**

The charity is a public benefit entity and a private company limited by guarantee, registered in England and Wales and a registered charity in England and Wales. The address of the registered office is 85 Stanley Road, Bournemouth, Dorset, BH1 4SD.

**2. Statement of compliance**

These financial statements have been prepared in compliance with FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland', the Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (Charities SORP (FRS 102)) and the Companies Act 2006.

**3. Accounting policies**

**Basis of preparation**

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in sterling, which is the functional currency of the entity.

**Going concern**

There are no material uncertainties about the charity's ability to continue.

**Judgements and key sources of estimation uncertainty**

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

**Taxation**

The charity is exempt from corporation tax on its charitable activities.

**Fund accounting**

Unrestricted funds are available for use at the discretion of the trustees to further any of the charity's purposes.

Designated funds are unrestricted funds earmarked by the trustees for particular future project or commitment.

Restricted funds are subjected to restrictions on their expenditure declared by the donor or through the terms of an appeal, and fall into one of two sub-classes: restricted income funds or endowment funds.

### **Notes to the Financial Statements (*continued*)**

**Year ended 30 September 2020**

#### **3. Accounting policies (*continued*)**

##### **Incoming resources**

All income is included in the statement of financial activities when entitlement has passed to the charity, it is probable that the economic benefits associated with the transaction will flow to the charity and the amount can be reliably measured. The following specific policies are applied to particular categories of income:

- income from donations or grants is recognised when there is evidence of entitlement to the gift, receipt is probable and its amount can be measured reliably.
- where there is uncertainty as to whether the conditions of the grant can be met, the income is deferred as a liability until it is probable that the conditions will be met.
- legacy income is recognised when receipt is probable and entitlement is established.
- donated facilities and services are recognised in the accounts when received if the value can be reliably measured. No amounts are included for the contribution of general volunteers.
- income from donated goods for resale is measured at the fair value of the goods unless this is impractical, in which case the value to the charity of the donated goods is recognised as income when sold.
- income from contracts for the supply of services is recognised with the delivery of the contracted service. This is classified as unrestricted funds unless there is a contractual requirement for it to be spent on a particular purpose and returned if unspent, in which case it may be regarded as restricted.

##### **Resources expended**

Expenditure is recognised on an accruals basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is classified under headings of the statement of financial activities to which it relates:

- expenditure on raising funds includes the costs of all fundraising activities, events and non-charitable trading activities.
- expenditure on charitable activities includes all costs incurred by a charity in undertaking activities that further its charitable aims for the benefit of its beneficiaries, including those support costs and costs relating to the governance of the charity apportioned to charitable activities.
- other expenditure includes all expenditure that is neither related to raising funds for the charity nor part of its expenditure on charitable activities.

All costs are allocated to expenditure categories reflecting the use of the resource. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs are apportioned between the activities they contribute to on a reasonable, justifiable and consistent basis.

## **Company Limited by Guarantee**

### **Notes to the Financial Statements (*continued*)**

**Year ended 30 September 2020**

#### **3. Accounting policies (*continued*)**

##### **Tangible assets**

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses. Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

##### **Depreciation**

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Leasehold property	- over the term of the lease
Fixtures and fittings/Computer equipment	- 25% reducing balance/3 years straight line
Motor vehicles	- 25% straight line

##### **Impairment of fixed assets**

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

##### **Stocks**

Stock is included at the lower of cost and net realisable value. It only includes items purchased for re-sale by the charity. No value is attributed to the majority of stock held due to the fact that the items have been donated from members of the public. Estimating the fair value of these items is impractical because of the volume of low-value items received. In accordance with the Charities SORP (FRS 102), the value of these donated items is recognised as income when sold.

##### **Government grants**

Government grants are recognised at the fair value of the asset received or receivable. Grants are not recognised until there is reasonable assurance that the company will comply with the conditions attaching to them and the grants will be received.

Where the grant does not impose specified future performance-related conditions on the recipient, it is recognised in income when the grant proceeds are received or receivable. Where the grant does impose specified future performance-related conditions on the recipient, it is recognised in income only when the performance-related conditions have been met. Where grants are received prior to satisfying the revenue recognition criteria, they are recognised as a liability.

Year ended 30 September 2020

#### 3. Accounting policies (*continued*)

##### Financial instruments

A financial asset or a financial liability is recognised only when the entity becomes a party to the contractual provisions of the instrument.

Basic financial instruments are initially recognised at the amount receivable or payable including any related transaction costs, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Current assets and current liabilities are subsequently measured at the cash or other consideration expected to be paid or received and not discounted.

Debt instruments are subsequently measured at amortised cost.

##### Pension costs

The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are recognised in profit and loss account when due.

#### 4. Limited by guarantee

The company is limited by guarantee and does not have share capital. The liability of each member in the event of the company being wound up is £10.

#### 5. Donations and legacies

The charity benefits from the involvement of its many volunteers, details of which are given in the trustees report. In accordance with the Charities SORP (FRS 102), the economic contribution of volunteers is not measured in the accounts.

The charity also benefits from the receipt of a large number of donated goods for resale. Due to the volume of low-value items received, in accordance with the Charities SORP (FRS 102) the value of these donated goods is recognised as income when sold.
