NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1 ACCOUNTING POLICIES

1.1 Statement of compliance

The financial statements have been prepared in accordance with FRS 102 Section 1A – The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006.

1.2 General information

Cheshire Dent Removal Limited (company number 4967425) is a private company limited by shares and incorporated in England & Wales. Its registered office is 52 Birtles Road, Macclesfield, Cheshire SK10 3JQ.

1.3 Going concern

The director believes that the company is experiencing reasonable levels of sales growth and profitability, and that it is well placed to manage its business risks successfully. Accordingly, he has a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus he continues to adopt the going concern basis of accounting in preparing the financial statements.

1.4 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue from the sale of services is recognised when the services are invoiced.

1.5 Tangible assets

Tangible fixed assets held for the company's own use are stated at cost less accumulated depreciation.

Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Motor vehicles 25% per annum reducing balance basis
Tools and equipment 15% per annum reducing balance basis
Office equipment 25% per annum straight line basis

1.6 Hire purchase contracts

Assets obtained under hire purchase contracts are capitalised as tangible fixed assets. Assets acquired under hire purchase contracts are depreciated over their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

1.7 Taxation

Taxation represents the sum of tax currently payable and deferred tax. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on all timing differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxation profit.

Deferred tax liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

1.8 Pensions

The company operates a defined contribution pension scheme, and the pension charge represents the amounts payable to the fund in respect of the year.
