## **Notes to the abbreviated financial statements for the year ended 31 October 2014**

### **1. Accounting policies**

#### **1.1. Accounting convention**

The accounts are prepared under the historical cost convention modified to include the revaluation of certain fixed assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

#### **1.2. Turnover**

Turnover represents the total value of rental income received during the year.

#### **1.3. Investments**

Fixed asset investments are stated at cost less provision for permanent diminution in value.

#### **1.4. Deferred taxation**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date, that will result in an obligation to pay more, or a right to pay less or to receive more, tax.

Deferred tax assets are recognised only to the extent that the director considers that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

#### **1.5. Going concern**

The accounts have been prepared on the assumption that the company is able to carry on business as a going concern, which the director considers appropriate having regard to the circumstances outlined in Note 5 to the accounts.

### **2. Fixed assets**

### **4. Transactions with director**

During the year sales of £17,100 (2013 - £16,320) were made to Fleet Glass Limited, a company which is related by virtue of the common director and shareholder, I Bell.

### **5. Future trading and current economic environment**

The director believes that the company is well placed to manage its business risks successfully despite the current uncertain economic outlook. The director has a reasonable expectation that the company has adequate funds to continue in operational existence for a period of twelve months from the date of signing of the financial statements. Thus, he continues to adopt the going concern basis of accounting in preparing the financial statements.
