NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2022

1. STATUTORY INFORMATION

Seymours Estate Agents (Burpham) Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page. The company's principal place of business is 5 Kingpost Parade, Burpham, Guildford, Surrey, GU1 1YP.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 (FRS 102 1A) "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. Unless indicated otherwise in the accounting policies below, the financial statements have been prepared under the historical cost convention.

Turnover

Turnover represents the fair value of services provided in the ordinary course of the business, excluding Value Added Tax. In the case of property sales, commission receivable is recognised at the date of exchange of properties.

Goodwill

Intangible assets relate to goodwill in connection with the acquisition of the business in 2008. The amount recognised is the excess of the cost of the acquisition over the interest in the net fair value of identifiable assets and liabilities acquired, and is capitalised as an asset on the balance sheet and is recognised as an intangible fixed asset.

Goodwill is amortised over its estimated useful life of 10 years. This length of time is presumed to be the maximum useful life of purchased goodwill because it is difficult to make projections beyond this period. Goodwill is reviewed for impairment at the end of the first full financial year following each acquisition and subsequently as and when necessary if circumstances emerge that the carrying value may not be recoverable.

Tangible fixed assets

Tangible assets are stated at cost less accumulated depreciation. Cost includes the original purchase price and costs directly attributable to bringing the asset to its working condition for its intended use.

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Improvements to property - over the life of the lease Office equipment - 20% on cost Computer equipment - 20% on cost

On disposal the difference between net proceeds and the carrying amount of the item sold is recognised in the statement of income and is included in administrative expenses.

Government grants

Government grants in the prior year relate to amounts receivable in relation to government support available during the Coronavirus pandemic to include the Coronavirus Job Retention Scheme and interest payable by the Government on the Bounce Back loan. The grant income is accounted for under the accruals model. Grants relating to revenue are recognised in income on a systematic basis over the period in which the entity recognises the related costs for which the grant is intended to compensate.

Financial instruments

Financial instruments are classified by directors as basic or non-basic following the conditions on FRS 102 Section 11. Basic financial instruments are recognised at amortised cost using the effective interest rate method. The company does not have any non-basic financial instruments.

NOTES TO THE FINANCIAL STATEMENTS - continued for the year ended 31 December 2022

2. ACCOUNTING POLICIES - continued

Taxation

Current tax is the amount of corporation tax payable in respect of the taxable profit for the period or prior periods. Tax is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the period end.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

Pension costs

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the income statement in the period to which they relate.

Operating leasing commitments

Rentals paid under operating leases are charged to the income statement on a straight line basis over the period of the lease. The benefits of lease incentives are recognised in the income statement in the period to which they relate.

3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was 11 (2021 - 11).
