PROPTECH AERO LIMITED (REGISTERED NUMBER: 06738425)

BALANCE SHEET - continued 31 DECEMBER 2017

The financial statements have been prepared and delivered in accordance with the provisions of Part 15 of the Companies Act 2006 relating to small companies.

In accordance with Section 444 of the Companies Act 2006, the Income Statement has not been delivered.

The financial statements were approved by the Board of Directors on on its behalf by:

R A Sheffield - Director

C Choules - Director

The notes form part of these financial statements

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017

STATUTORY INFORMATION 1.

Proptech Aero Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with "The Financial Reporting Standards applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies regime.

The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure Is required to show a true and far view.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £1.

The financial statements have been prepared under the historical cost convention, modified to include certain financial instruments at fair value. The principal accounting policies adopted are set out below.

Turnover represents net invoiced sales of goods and services, excluding value added tax. Income is recognised in the profit and loss account in the period at which the services have been completed and when the goods are ready for distribution.

Intangible assets

Intangible assets are initially measured at cost. After initial recognition, intangible assets are measured at cost less any accumulated amortisation and any accumulated impairment losses.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Short leasehold

- Over the length of the lease

Improvements to property

- Straight line over 15 years

Plant and machinery

- 10% to 33% Straight line and Straight line over 15 years

Fixtures and fittings

- 10% to 20% Straight line and 33% Straight line

Motor vehicles

- 20% Straight line

Computer equipment

- 25% and 33% Straight line

Upon adoption of FRS 102, the company has revalued some items of tangible fixed assets to fair value. The increase in fair value will be released to the profit and loss account over the remaining useful life of the Assets. The net book value of assets that have been revalued is held within non-distributable reserves.

The profit or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset and is recognised in the income statement.

NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31 DECEMBER 2017

2. ACCOUNTING POLICIES - continued

Stocks

Stocks and work in progress are valued at the lower of cost and net realisable value. Cost is based on the cost of purchase on a first in, first out basis. Net realisable value is based on estimated selling price less additional costs to completion and disposal. Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

The nature of the industry dictates that the company are required to provide modular stock to the customers immediately on request. The modular stock is held at cost on the balance sheet and is effectively swapped for the customers items, which require repair / renovation. The modular stock is loaned to the customer until the customers items are repaired / renovated, and at the point that the work is completed and invoiced, the repaired / renovated stock replaces the stock item that was sent out the the customer initially.

A provision for slow moving and obsolete stock is provided for in the valuation.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Foreign currencies

Foreign currency transactions are translated into sterling at the rates ruling when they occured. Foreign currency monetary assets and liabilities are translated at the rates ruling at the balance sheet date. Any differences are taken to the profit and loss account.

Hire purchase and leasing commitments

Where assets are financed by leasing agreements that give rights approximating to the ownership (finance lease), the assets are treated as if they had been purchased outright. The amount capitalised is the present value of the minimum lease payments payable over the term of the lease. The corresponding leasing commitments are shown as amounts payable to the lessor. Depreciation on the relevant assets is charged to the profit and loss account over the shorter of the estimated useful economic lift and the period of the lease.

All other leases are treated as operating leases. Their annual rentals are charged to the profit and loss account on a straight-line basis over the term of the lease.

NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31 DECEMBER 2017

2. ACCOUNTING POLICIES - continued

Pension costs and other post-retirement benefits

Contributions to the company's defined contribution pension scheme are charged to the profit and loss account in the year in which they become payable.

Financial assets

The Company has elected to apply the provision of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial assets are recognised in the company's statement of financial position when the company becomes party to the contractual provisions of the instrument.

Basic financial assets, which include trade and other receivables and cash and bank balances are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method, unless the arrangement constitutes a financial transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Financial liabilities

Basic financial liabilities which include trade and other payables, are initially measured at transaction price and subsequently measured at amortised cost, unless the arrangement constitutes a financing transaction where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Equity instruments

Equity instruments issued by the company are recorded at the fair value of the proceeds received net of direct issue costs. Dividend's payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company

3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was 31 (2016 - 29).
