Approved by the Board on 31 December 2014

And signed on their behalf by:

Mr S Rose, Director

Notes to the Abbreviated Accounts for the period ended 31 March 2014**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

Tangible assets depreciation policy

Fixed assets

All fixed assets are initially recorded at cost

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Equipment - 25% straight line

Other accounting policies

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability.

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity
