#### **Directors' of the company**

The directors, who held office during the year and up to the date of signing, were as follows:

D Yates

M J Harkcom

U S Ball

#### **Principal activity**

The principal activity of the company continued to be that of a financing company.

#### **Dividends**

The directors propose a final dividend payment of £Nil be made in respect of the financial year ended 31 December 2020 (2019: £Nil).

#### **Future developments**

The directors expect the general level of activity to continue for the foreseeable future.

The outbreak of Coronavirus Disease 2019 ("COVID-19 outbreak") in early 2020 had no impact on the company due to the nature of its business.

#### **Going concern**

The company is a subsidiary of Bodycote plc, which manages its working capital on a pooled basis across the Group. Based on the strong trading relationship between this company and Bodycote plc, the directors believe that the company will continue to provide financial and management services to the Group. The receivables with other group companies are significant and the directors consider there to be no issues with the recoverability of these balances due to the relationship with the parent company and with reference to the following statements included in the going concern disclosure which appears in the financial statements of Bodycote plc for the year ended 31 December 2020.

"The Group meets its working capital requirements through a combination of committed and uncommitted facilities and overdrafts. For the purposes of the going concern assessment, the Directors have only taken into account the capacity under existing committed facilities, being the Group's Revolving Credit Facility. The Group's uncommitted facilities totalled £61m as at 31 December 2020.

On 27 May 2020, the Group negotiated a new £250.9m Revolving Credit Facility for five years to May 2025. At 31 December 2020, the Group's Revolving Credit Facility had drawings of £51.7m (2019: £nil) and the Group's net debt was £22.5m (2019: net cash of £20.9m). The liquidity headroom was £221.7m at 31 December 2020 excluding uncommitted facilities."

The Directors have formed a judgement, at the time of approving the financial statements, that there are no material uncertainties that cast doubt on the Group's going concern status and that it is a reasonable expectation that the Group has adequate resources to continue in operational existence for at least the next 12 months. For this reason, the Directors continue to adopt the going concern basis in preparing the consolidated financial statements."

On the above basis, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future and for this reason they continue to adopt the going concern basis in preparing the financial statements.

## **Bodycote America Treasury Limited**

### **Notes to the Unaudited Financial Statements for the Year Ended 31 December 2020 (continued)**

#### **2 Accounting policies (continued)**

##### **Going concern**

As described in the Directors' Report on pages 2 and 3, the directors have formed a judgement, at the time of approving the financial statements, that there are no material uncertainties that cast doubt on the Company's going concern status and that it is a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. In making this judgement, they have considered the impacts of current and severe but plausible consequences arising from COVID-19 to the Company's activities. For this reason, the directors continue to adopt the going concern basis in preparing the financial statements.

##### **Tax**

The tax expense for the period comprises just current tax.

Tax is recognised in the profit or loss result for the year, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge or credit is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

##### **Investments**

Investments are stated at cost less provision for impairment.

##### **Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

##### **Receivables**

Receivables are initially recognised at fair value. Trade receivables, loans, and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment.

Per IFRS 9, a simplified lifetime Expected Credit Loss (ECL) model is used to assess receivables for impairment. An assessment regarding the ECL of these amounts has been made and the Company has identified that no allowance for expected credit losses is required.

Amounts owed by subsidiary undertakings falling due after more than one year are classified as such according to the loan agreement.

##### **Payables**

Financial liabilities are classified according to the substance of the contractual arrangements entered into. Non-interest-bearing financial liabilities are stated at their nominal value. Trade payables are recognised at fair value.

Amounts owed to subsidiary undertakings falling due after more than one year are classified as such according to the loan agreement.

##### **Share capital**

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

### **Notes to the Unaudited Financial Statements for the Year Ended 31 December 2020 (continued)**

#### **2 Accounting policies (continued)**

##### **Interest income**

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

##### **Foreign currency transactions and balances**

Transactions in foreign currencies are initially recorded at the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated into the respective functional currency of the entity at the rates prevailing on the reporting period date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the initial transaction dates.

Non-monetary items measured in terms of historical cost in a foreign currency are not retranslated.

#### **3 Critical accounting judgements and key sources of estimation uncertainty**

The preparation of financial statements often requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the statement of financial position date and the amounts reported for revenues and expenses during the year. For the current year, there were no significant judgements nor key sources of estimation uncertainty that require disclosure.
