Directors' report for the year ended 31 March 2020

The directors present their annual report and the audited financial statements for the year ended 31 March 2020.

This directors' report has been prepared in accordance with the provisions applicable to small companies entitled to the small companies' exemption and the company has taken advantage of the exemption from the requirement to prepare a strategic report.

Principal activities

The principal activity of the company was that of property development and investment.

The company is a subsidiary of North London Estate Partnerships Limited, a public private partnership established under the NHS Local Improvement Finance Trust (LIFT) directive to build and develop primary care health properties in the London Boroughs of Barnet, Enfield and Haringey.

The company was established in 2010 and commenced the construction of the Finchley Memorial Hospital in September 2010. The whole project was completed and operational in summer 2013.

Dividends

Dividends of £560,000 (2019: £180,000) were paid during the year. No further dividends are proposed.

Directors

The directors who served during the year and to the date of this report were:

I Tayler

B S Conroy

C R Hollwey

J R Andrews

F M Schramm

A McDonnell (appointed 9 May 2019, resigned 3 February 2020)

G Shopov (appointed 3 February 2020)

Qualifying third party indemnity provisions

The company has put in place qualifying third party indemnity provisions for all of the directors of the company which was in force at the date of approval of this report.

Going concern

At the year-end, the company has net assets of £1,844,000 (2019: £2,094,000). The company has net current liabilities of £245,000 (2019: net current assets of £15,000), including cash of £481,000 (2019: £918,000).

The COVID-19 pandemic is unprecedented in its scale and is having significant impact on the UK economy, the full extent of which is unknown at this time. This creates uncertainty in respect of all future business plans, but at the time of writing the directors do not believe there is any going concern risk to the company, as its major Tenant, Community Health Partnerships (CHP) has formally written to all LIFT Companies on 27 March 2020, to confirm that it will be following the Government's 'Procurement Policy Note 02/20: Supplier relief due to COVID-19' (published on 20 March 2020), by ensuring that all lease payments will be paid as due.

Directors' report for the year ended 31 March 2020 (continued)

Going concern (continued)

One possible area of risk is that the FM service provider struggles to comply with its contractual obligations as a result of the pandemic leading to a shortage of maintenance staff or creating associated issues in their supply chain. This situation is being closely monitored to ensure that we are fully up to date with any developments that may impact on their service delivery and that their Business Continuity Plan is regularly reviewed and updated as necessary. To assist with reducing maintenance visits to LIFT facilities and to support the Government's social distancing objective, CHP have requested that only those maintenance tasks that are critical to the continuity of clinical service provision should be prioritised and other non-essential tasks can be rescheduled (without applying any deductions or accruing any service failure points for these non-essential services). Furthermore, CHP have confirmed that they will relax any contractual obligations / performance failures that could be incurred as a result of a COVID-19 outbreak at any LIFT facility.

The directors have reviewed the future liquidity requirements and have considered the cash flow forecasts of the company. The company produces long-term financial forecasts which show the company is able to operate and meet its financial obligations as they fall due, including compliance with all loan covenants. Based on this review and the future business prospects of the company, the directors believe the company will be able to meet its liabilities as they fall due.

Having regard to the above and after making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts.

Directors' responsibilities

The directors are responsible for preparing the directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards ('IFRSs') as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Directors' report for the year ended 31 March 2020 (continued)

Disclosure of information to auditor

Director

Each of the persons who are directors at the time when this directors' report is approved has confirmed that:

- so far as that director is aware, there is no relevant audit information of which the company's auditor is unaware; and
- that director has taken all the steps that ought to have been taken as a director in order to be aware of any information needed by the company's auditor in connection with preparing their report and to establish that the company's auditor is aware of that information.

This report was approved by the board 3 December 2020 and signed on its behalf.

Independent auditor's report

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF FMH FUNDCO LIMITED

Opinion

We have audited the financial statements of FMH Fundco Limited ("the Company") for the year ended 31 March 2020 which comprise the statement of comprehensive income, the statement of financial position, the statement of changes in equity and the statement of cash flows, and the notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

In our opinion, the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 March 2020 and of its profit for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The Directors are responsible for the other information. The other information comprises the information included in the Annual report and financial statements, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Independent auditor's report (continued)

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Directors' report has been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Director's report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of Directors' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit; or
- the Directors were not entitled to take advantage of the small companies' exemptions in preparing the Directors' report and from the requirement to prepare a Strategic report.

Responsibilities of Directors

As explained more fully in the Directors' responsibilities statement, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Independent auditor's report (continued)

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Notes forming part of the financial statements for the year ended 31 March 2020

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been applied consistently to all the years presented, unless otherwise stated.

1 Basis of preparation

The principal accounting policies adopted in the preparation of the financial statements are set out in note 2. The policies have been consistently applied to all the years presented, unless otherwise stated.

The financial statements are presented in pound sterling, which is also the company's functional currency.

These financial statements have been prepared in accordance with International Financial Reporting Standards and International Accounting Standards as issued by the International Accounting Standards Board (IASB) and Interpretations (collectively IFRSs).

The preparation of financial statements in compliance with adopted IFRS requires the use of certain critical accounting Estimates. It also requires management to exercise judgement in applying the company's accounting policies. The areas where significant judgements and estimates have been made in preparing the financial statements and their effect are disclosed in note 3.

1.1 Standards issued and applied for the first time this year

New standards impacting the company adopted in the annual financial statements for the year ended 31 March 2020, and which have given rise to changes in the company's accounting policies are:

- IFRS 16 'Leases' (mandatorily effective for periods beginning on or after 1 January 2019)
- IFRIC 23 'Uncertainty over Income Tax Positions' (effective 1 January 2019)

The company has assessed that the adoption of IFRS 16 and IFRIC 23 has had no material impact on the financial statements for either the current year or prior years.

1.2 New standards, interpretations and amendments not yet effective

There are a number of standards, amendments to standards, and interpretations which have been issued by the IASB that are effective in future accounting periods that the group has decided not to adopt early. The following amendments are effective for periods beginning on or after 1 January 2020:

- IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors (Amendment – Definition of Material);
- IFRS 3 Business Combinations (Amendment Definition of Business); and
- Revised Conceptual Framework for Financial Reporting

The directors do not expect any of these standards, interpretations or amendments to have a material impact on the company.

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

2 Accounting policies

2.1 Going concern

At the year-end, the company has net assets of £1,844,000 (2019: £2,094,000). The company has net current liabilities of £245,000 (2019: net current assets of £15,000), including cash of £481,000 (2019: £918,000).

The COVID-19 pandemic is unprecedented in its scale and is having significant impact on the UK economy, the full extent of which is unknown at this time. This creates uncertainty in respect of all future business plans, but at the time of writing the directors do not believe there is any going concern risk to the company, as its major Tenant, Community Health Partnerships (CHP) has formally written to all LIFT Companies on 27 March 2020, to confirm that it will be following the Government's 'Procurement Policy Note 02/20: Supplier relief due to COVID-19' (published on 20 March 2020), by ensuring that all lease payments will be paid as due.

One possible area of risk is that the FM service provider struggles to comply with its contractual obligations as a result of the pandemic leading to a shortage of maintenance staff or creating associated Issues in their supply chain. This situation is being closely monitored to ensure that we are fully up to date with any developments that may impact on their service delivery and that their Business Continuity Plan is regularly reviewed and updated as necessary. To assist with reducing maintenance visits to LIFT facilities and to support the Government's social distancing objective, CHP have requested that only those maintenance tasks that are critical to the continuity of clinical service provision should be prioritised and other non-essential tasks can be rescheduled (without applying any deductions or accruing any service failure points for these non-essential services). Furthermore, CHP have confirmed that they will relax any contractual obligations / performance failures that could be incurred as a result of a COVID-19 outbreak at any LIFT facility.

The directors have reviewed the future liquidity requirements and have considered the cash flow forecasts of the company. The company produces long-term financial forecasts which show the company is able to operate and meet its financial obligations as they fall due, including compliance with all loan covenants. Based on this review and the future business prospects of the company, the directors believe the company will be able to meet its liabilities as they fall due.

Having regard to the above and after making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts.

2.2 Financial instruments

2.2.1 Financial assets

The company classifies its financial assets as held at amortised cost and the company's accounting policy for this category of asset is as follows:

These assets arise principally from the provision of services to customers (e.g. trade receivables), but also incorporate other types of financial assets where the objective is to hold these assets in order to collect contractual cash flows and the contractual cash flows are solely payments of principal and interest. They are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition or issue, and are subsequently carried at amortised cost using the effective interest rate method, less provision for impairment.

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

2 Accounting policies (continued)

2.2 Financial instruments (continued)

2.2.1 Financial assets (continued)

Impairment provisions for current and non-current trade receivables are recognised based on the simplified approach within IFRS 9 using a provision matrix in the determination of the lifetime expected credit losses. During this process the probability of the non-payment of the trade receivables is assessed. This probability is then multiplied by the amount of the expected loss arising from default to determine the lifetime expected credit loss for the trade receivables. For trade receivables, which are reported net, such provisions are recorded in a separate provision account with the loss being recognised within administrative expenses in the statement of comprehensive income. On confirmation that the trade receivable will not be collectable, the gross carrying value of the asset is written off against the associated provision.

Impairment provisions for receivables from related parties and loans to related parties are recognised based on a forward looking expected credit loss model. The methodology used to determine the amount of the provision is based on whether there has been a significant increase in credit risk since initial recognition of the financial asset. For those where the credit risk has not increased significantly since initial recognition of the financial asset, twelve month expected credit losses along with gross interest income are recognised. For those for which credit risk has increased significantly, lifetime expected credit losses along with the gross interest income are recognised. For those that are determined to be credit impaired, lifetime expected credit losses along with interest income on a net basis are recognised.

From time to time, the company elects to renegotiate the terms of trade receivables due from customers with which it has previously had a good trading history. Such renegotiations will lead to changes in the timing of payments rather than changes to the amounts owed and, in consequence, the new expected cash flows are discounted at the original effective interest rate and any resulting difference to the carrying value is recognised in the statement of comprehensive income (operating profit or loss).

The company's financial assets measured at amortised cost comprise trade and other receivables, finance receivables and cash and cash equivalents in the statement of financial position.

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less, and – for the purpose of the statement of cash flows - bank overdrafts. Bank overdrafts are shown within loans and borrowings in current liabilities on the statement of financial position.

2.2.2 Financial liabilities

The company classified its financial liabilities as held at amortised cost, for which the accounting policy is as follows:

Bank and other borrowings are initially recognised at fair value net of any transaction costs directly attributable to the issue of the instrument. Such interest bearing liabilities are subsequently measured at amortised cost using the effective interest rate method, which ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carried in the statement of financial position. For the purposes of each financial liability, interest expense includes initial transaction costs and any premium payable on redemption, as well as any interest or coupon payable while the liability is outstanding.

Trade payables and other short-term monetary liabilities, which are initially recognised at fair value and subsequently carried at amortised cost using the effective interest method.

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

2 Accounting policies (continued)

2.3 Revenue

2.3.1 Public to private concession arrangements

A substantial portion of the company's assets are used within the framework of concession contracts granted by public sector customers ('grantors'). Under these contracts, the company has constructed a primary care centre that is leased to the NHS on a 30 year lease.

In order to fall within the scope of IFRIC 12, a contract must satisfy the following two criteria:

- the grantor controls or regulates what services the operator must provide with the infrastructure, to whom
 it must provide them, and at what price; and
- the grantor controls the significant residual interest in the infrastructure at the end of the term of the arrangement.

Pursuant to IFRIC 12, such infrastructures are not recognised in assets of the operator as property, plant and equipment but in financial assets ('financial asset model').

2.3.2 'Financial asset model'

The financial asset model applies when the operator has an unconditional right to receive cash or another financial asset from the grantor.

In the case of concession services, the operator has such an unconditional right if the grantor contractually guarantees the payment of:

- amounts specified or determined in the contract; or
- the shortfall, if any, between amounts received from users of the public service and amounts specified or determined in the contract.

Financial assets resulting from the application of IFRIC 12 are recorded in the statement of financial position under the heading finance receivables and measured at amortised cost.

Pursuant to IFRS 9, an impairment loss is measured at an amount equal to the 12-month expected credit losses.

The portion falling due within less than one year is presented in current assets, while the portion falling due after more than one year is presented in the non-current heading.

Pursuant to IFRS 15, revenue associated with this financial model in the case of the construction of operating financial assets and service remuneration comprises revenue determined on an over time basis. This is because the contracts would require payment to be received for the time and effort spent by the company on progressing the contracts in the event of the customer cancelling the contract prior to completion for any reason other than the company's failure to perform its obligations under the contract. The stage of completion of construction is determined by comparing independently certified costs incurred to date to total contracted costs. Costs of construction include directly attributable borrowing costs.

Determining the transaction price

The company's revenue on over time sales is generally based on fixed price contracts but these are subject to more variability as a result of the nature of the contract. Any variable consideration is constrained in estimating contract revenue in order that it is highly probable that there will not be a future reversal in the amount of revenue recognised when the final amounts of any variations has been determined.

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

2 Accounting policies (continued)

2.3 Revenue (continued)

2.3.2 'Financial asset model' (continued)

Allocating amounts to performance obligations

For some contracts including ad hoc property related services income, there is a fixed unit price for each service provided. Therefore, there is no judgement involved in allocating the contract price in such contracts. The core service concession contracts include multiple deliverables. Where the contracts include multiple performance obligations, which are determined to be separate performance obligations, the transaction price will be allocated to each performance obligation based on the stand-alone selling prices. Where these are not directly observable, they are estimated based on expected cost plus margin, which is a key judgement (see note 3).

2.4 Other revenue items

Other revenue items comprise 'Property management and related services', 'Rental income' and 'Other income'.

Property management and related services revenue relates to lifecycle maintenance and facilities management income and ad hoc property related services income. The former relates to work performed by the company under concession arrangements to maintain and repair the primary care centres that it operates. Consideration received in respect of property management and related services revenue is recognised over time as the services are delivered, and revenue attributable to costs in future periods is deferred.

Rental income and lease premiums from operating leases are recognised in income on a straight line basis over the lease term.

Other income is sundry income and is recognised at a point in time when the company has performed the work.

2.5 Deferred tax

Deferred tax assets and liabilities are recognised where the carrying amount of an asset or liability in the statement of financial position differs from its tax base.

Recognition of deferred tax assets is restricted to those instances where it is probable that taxable profit will be available against which the difference can be utilised.

The amount of the asset or liability is determined using tax rates that have been enacted or substantively enacted by the reporting date and are expected to apply when the deferred tax liabilities/(assets) are settled/(recovered).

2.6 Dividends

Dividends are recognised when they become legally payable. In the case of interim dividends to equity shareholders, this is when declared by the directors. In the case of final dividends, this is when approved by the shareholders.

2.7 Reserves

The following describes the nature and purpose of each reserve within equity:

Retained earnings – All other net gains and losses and transactions with owners (e.g. dividends) not recognised elsewhere.

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

3 Accounting estimates and judgements

The estimates and judgements that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are as follows:

3.1 Key sources of estimation uncertainty

- (a) Finance receivables (note 9) The calculation of the amortised cost of finance receivables requires an estimate of the residual value of the property at the end of the lease term. This estimate has been based on the residual value allocated to the contract in the financial models, which form the basis for the calculation of rent charged to the lessees.
- (b) Construction and operating revenue (notes 4 & 9) Where properties are constructed by the company and are disposed of on finance receivables, construction and operating revenue is recognised at the estimated fair value of those services in the context of these arrangements. The proportion of receipts attributed to operating services is based on the original modelled costs to which no profit mark up was applied based on the directors' assessment of the nature of subcontract arrangements in place.
- (c) RPI index (note 9) The finance debtors predict a level of RPI increases for future receipts. This represents a degree of judgement and uncertainty given the nature of RPI. Where RPI differs from the estimated rate of 2.5%, this will impact future receipts and thus increase/reduce the floating rate of interest on finance debtors, which affects the amount of income recognised in any given period.

3.2 Critical judgements

- (a) Concession arrangements The concession arrangements undertaken by the company are considered to fall within the scope of IFRIC 12, as described in note 2.3.1. This judgement has been based on a consideration of the nature and terms of the agreements and in all of the contracts the existence of an option for the grantor to purchase the properties at any time.
- (b) Finance receivables The lease agreements with Community Health Partnerships include provision for the annual uplift of rentals with reference to movements in the RPI index. As a result, the finance receivables have been treated as floating rate assets.

4 Revenue

Disaggregation of revenue

The company derives revenue (all of which is in the UK) from the transfer of services in the following major classes of business within the UK:

	2020 £'000	2019 £'000
Property management and related services Rental income	760 19	1,145 19
Other income	<u> </u>	8
	787	1,172

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

4	Revenue (continued)		•
•	Contract deferred income	2020 £'000	2019 £'000
	At 1 April	1,300	1,267
	Amounts included in contract deferred income that was recognised as revenue during the year Cash received in advance of performance and not recognised as	(203)	(243)
	revenue during the year	280	276
	At 31 March	1,377	1,300

Contract deferred income is included within "payables" on the face of the statement of financial position. They arise from contracts that span the year-end, because cumulative payments received from customers at each statement of financial position date do not necessarily equal the amount of revenue recognised on the contracts.

Remaining performance obligations

The majority of the company's property management and related services revenue is in respect of the service concession arrangements as set out in the accounting policies. A proportion of the annual receipts under those arrangements relate to lifecycle obligations and revenue on these services is recognised as the work is done. The allocations of receipts to such activities is based on the overall proportion of total costs over the contract relating to lifecycle and to the extent the amount allocated exceeds the revenue recognised to date, this is included within contract deferred income.

The amount of revenue, including the deferred contract income above, that will be recognised in future periods on these contracts depends on when those remaining performance obligations are satisfied. The timing of this is uncertain as it depends on when such lifecycle expenditure is incurred by the lifecycle provider. The analysis below shows the modelled phasing, with this phasing assuming that income deferred due to underspend to date on the original model will be utilised in the following year:

	2020 £'000	2019 £'000
Within one year	64	80
Within one to two years	239	187
Within two to five years	1,035	898
Over five years	8,800	9,177
		
	10,138	10,342

The above amounts only relate to lifecycle expenditure, and not in respect of facilities management services for which the practical expedient in paragraph 121(b) of IFRS 15 applies as the right to consideration corresponds with the value to the customer as the service is delivered.

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

5	Operating profit		<u>. </u>
•		2020 £'000	2019 £'000
	This is arrived at after charging:	£ 000	2 000
	Fees payable to the company's auditor for the audit of the company's annual financial statements	6	5
	There were no employees during the year (2019; none).		
6	Finance income	2020 £'000	2019 £'000
	Interest on short-term deposits Interest income on finance receivables	2 2,392	4 2,418
		2,394	2,422
7	Finance costs	2020	2019
		£'000	£'000
	Interest on borrowings	1,951	1,958
3	Tax charge	2020 £'000	2019 £'000
	Corporation tax: Current year Prior year	85 	85 (6)
	Total corporation tax charge	85	79
	Deferred tax (note 15): Change in tax rate	51	-
	Total deferred tax charge	51	-
	Tax charge	136	79

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

8 Tax charge (continued)

The tax charge for the year can be reconciled to the profit for the year as follows:

	2020 £'000	2019 £'000
Profit before tax	446	448
Profit on ordinary activities multiplied by standard rate of corporation tax in the UK of 19% (2019 - 19%)	85	85
Adjustment in respect of prior years Change in tax rate	51 	(6)
Tax charge	136	79

The main rate of corporation tax in force at the statement of financial position date was 19%. A resolution to retain the corporation tax rate from 1 April 2020 at 19% was passed on 17 March 2020, and is enacted from this date.

The deferred taxation liability has therefore been calculated at 19%, being the rate substantively enacted at the statement of financial position date.

Estimates and assumptions, including uncertainty over income tax treatments

No material uncertain tax positions exist as at 31 March 2020. This assessment relies on estimates and assumptions and may involve a series of complex judgements about future events. To the extent that the final tax outcome of these matters is different than the amounts recorded, such differences will impact income tax expense in the period in which such determination is made.

9 Finance receivables

	2020 £'000	2019 £'000
Net finance receivables:	2 000	2 000
Current assets		
Due not later than 1 year (note 11)	17	-
Non-current assets		
Due later than 1 year and no later than 5 years	820	396
Due later than 5 years	32,426	32,835
•	33,246	33,231
·	33,263	33,231

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

9 Finance receivables (continued)

The company applies the IFRS 9 simplified approach to measuring expected credit losses using a lifetime expected credit loss provision for finance receivables. To measure expected credit losses on a collective basis, finance receivables are grouped based on similar credit risk and ageing.

The expected loss rates are based on the company's historical credit losses. The historical loss rates are then adjusted by reference to past default experience of the customer and an analysis of the customer's current financial position. The historical loss rates are then adjusted for current and forward-looking information on macroeconomic factors affecting the company's customers.

During the year ended 31 March 2020, there was no expected credit loss recognised on the finance receivable (2019 – £Nil).

10 Trade receivables

The company applies the IFRS 9 simplified approach to measuring expected credit losses using a lifetime expected credit loss provision for trade receivables. To measure expected credit losses on a collective basis, trade receivables are grouped based on similar credit risk and ageing.

The expected loss rates are based on the company's historical credit losses. The historical loss rates are then adjusted by reference to past default experience of the customer and an analysis of the customer's current financial position. The historical loss rates are then adjusted for current and forward-looking information on macroeconomic factors affecting the company's customers.

As at 31 March 2020 and 31 March 2019, the expected loss provision for trade receivables is as follows:

	Gross 2020 £'000	Provision 2020 £'000	Gross 2019 £'000	Provision 2019 £'000
Current	8	-	7	-
Past due 0-30 days	-	•	-	-
Past due 31-60 days	-		-	-
Past due more than 60 days	3	-	-	-
				
	11	•	7	-

There was no movement on the provision against trade receivables in the current or prior year.

In determining the recoverability of a trade receivable the company considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the reporting date. The impairment recognised represents the difference between the carrying amount of these trade receivables and the present value of the expected liquidation proceeds. The ageing of impaired receivables is shown above.

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

12 Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and balances with banks. Cash and cash equivalents included in the statement of cash flows comprise the following statement of financial position amounts:

	2020 £'000	2019 £'000
Cash on hand and balances with banks	481	918
Cash and cash equivalents	481	918

Included within cash and cash equivalents is an amount of £1,000 (2019: £38,000), which is held for the settlement of repairs under the lifecycle maintenance agreement and £Nil (2019: £Nil) held as a debt service reserve under the senior loan agreement.

13 Trade and other payables

Trade and other payables	2020 £'000	2019 £'000
Due within one year:		
Trade payables	38	86
Amounts owed to group undertakings	125	116
Corporation tax	85	85
Contract deferred income	64	203
Accruals and other deferred income	108	118
	420	608
Due after more than one year:		
Contract deferred income	1,320	1,097
Other deferred income	184	188
		
	1,504	1,285

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

14	Borrowings	2020 £'000	2019 £'000
	Bank loans due within 1 year	343	325
	Current portion of long term borrowings	343	325
	Non-current bank loans – Aviva Commercial Finance Limited Amounts owed to group undertakings	25,498 3,669	25,841 3,591
	Non-current borrowings	29,167	29,432

Bank loans are secured by performance bonds and collateral warranties over the Land Retained Agreement site.

Bank loans are repayable by quarterly instalments over a period of 30 years. The interest rate is fixed at a rate of 5.76%. There have been no defaults or breaches of interest payment terms during the year.

Amounts owed to group undertakings are in respect of loan notes issued by FMH Fundco Limited's parent company, the proceeds of which are then passed down to FMH Fundco Limited on the same terms. Interest accrues daily on loan notes at a rate of 6.90% during the construction phase of the related properties and then at a rate of 12.50% per annum thereafter. Interest is payable half yearly in arrears on 31 March and 30 September each year. Interest shall cease to accrue on the principal amount of the loan note from the date it is due for redemption.

Amounts owed to group undertakings rank pari passu with all other unsecured obligations of the company.

15 Deferred tax

The net deferred tax liability is comprised of:

2020 £'000	
Finance receivables timing differences 486	435

The only movement in the total deferred tax liability during the year was the tax charge as shown in note 8.

company	-	-	-	-	-	-

Further to the above, dividends of £560,000 were paid to the shareholder in the current year (2019: £180,000).

Amounts owed by and to related parties, except for loans due to related parties ("Amounts owed to group undertakings" note 14), are unsecured, interest-free, have no fixed terms of repayment and are repayable on demand. The balances will be settled in cash. No guarantees have been given or received. No provisions for doubtful debts have been raised against amounts outstanding and no expense has been recognised during the period in respect of bad or doubtful debts due from related parties.

There were no directors to whom remuneration was paid or to whom retirement benefits were accruing. The directors are remunerated by shareholder companies and their associates. The directors do not believe it is possible to accurately apportion their remuneration between the many entities they are directors of. There were no other employees of the company.

18 Financial instruments

18.1 Categories of financial assets and liabilities

All financial instruments disclosures of fair value are valued at reference to level three of the fair value hierarchy as set out in IFRS 7: Financial Instruments: Disclosures. The following table sets out the assets and liabilities for which fair values are disclosed and the unobservable inputs used to determine the fair values:

Item	Valuation technique	Significant unobservable Inputs
Trade receivables and payables	The carrying amount of short term (less than 12 months) trade receivable and payables approximates its fair values.	N/a
Finance receivables	The fair value of finance receivables in note 9, is estimated by discounting the future contractual cash flows at the estimated current rate of return for investors on similar projects.	Discount rate of 7%
Non-current borrowings	The fair value of non-current borrowings in note 13, is estimated by discounting the future contractual cash flows at the estimated current market interest rates.	Discount rate range 3.5% (bank loans) - 7% (other borrowings)

The categories of finance assets and financial liabilities are as follows:

Financial assets

I mancial assets		Estimated		Estimated
	Book value	fair value	Book value	fair value
	2020	2020	2019	2019
	£'000	£'000	£'000	£'000

				00.407
	29,620	38,787	29,843	39,437

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

18 Financial instruments (continued)

18.2 Financial risk management

The company's operations expose it to a number of financial risks. The board regularly reviews and agrees policies for managing each of these risks and these are summarised below.

Credit risk

Credit risk is the risk of financial loss where counterparties are not able or are unwilling to meet their obligations.

Finance receivables and trade receivables primarily comprise of amounts due from Community Health Partnerships. Management considers the credit quality of this debtor to be good in respect of the amounts outstanding, due to them being a shareholder in the company's parent undertaking and being a government body. Therefore credit risk is considered to be low. Cash and cash equivalents comprise balances held with banks. To reduce the risk of counterparty default, the company only uses approved high quality banks.

The maximum credit risk exposure relating to the financial assets is represented by the carrying value as at the statement of financial position date.

Liquidity risk

Liquidity risk is the risk that the company has insufficient financial resources available to meet its obligations as they fall due. Management review cashflow forecasts on a regular basis to determine whether the company has sufficient cash reserves to meet future working capital requirements and to take advantage of business opportunities.

The financial assets of the company are modelled so as to match the profile of the financial liabilities, the maturity analysis of which is set out below. Management closely monitor performance against the financial models and take action if necessary when performance is not in line with modelled expectations.

The table below summarises the maturity profile of the company's financial liabilities, on an undiscounted basis, at 31 March 2020 and 31 March 2019.

2020	Less than 3 months £'000	3 to 12 months £'000	1 to 5 years £'000	More than 5 years £'000	Total £'000
Financial liabilities Bank loans Long term borrowings	466	1,357	7,512	38,270	47,605
from parent company	114	464	1,813	12,891	15,282
Trade and other payables	110	<u>.</u>	-		110
	690	1,821	9,325	51,161	62,997

Notes forming part of the financial statements for the year ended 31 March 2020 (continued)

18 Financial instruments (continued)

18.2 Financial risk management (continued)

Liquidity risk (continued)

2019	Less than 3 months £'000	3 to 12 months £'000	1 to 5 years £'000	More than 5 years £'000	Total £'000
Financial liabilities Bank loans	463	1,362	7,409	40,196	49,430
Long term borrowings from parent company Trade and other	109	444	1,752	13,911	16,216
payables	308	_			308
	880	1,806	9,161	54,107	65,954

Interest rate risk

The company's exposure to market risk for changes in interest rates is considered to be very small, as all bank and other loans are at fixed rates. The risk for changes in interest rates is therefore restricted to the interest earned on bank deposits, which is immaterial to the company. It is the company's policy to settle trade payables within the credit terms allowed and the company does not therefore incur interest on overdue balances.

Capital management

The company seeks to match long term assets with long term funding and short term assets with short term funding. Borrowings are required primarily to finance construction activity and the related lease payments from customers are set at a level that will ensure that repayments of borrowings can be met as they fall due. Other expenses are met by cash balances generated from the company's ordinary activities.

19 Other commitments

On completion of the buildings, under terms of contracts made, the company is committed to fixed payments for Facilities Management and Lifecycle Maintenance for a 30 year period. The average annual payment for the buildings (excluding indexation) amounts in total to £427,000. The charges to the statement of comprehensive income for the year ended 31 March 2020 were £520,000 (2019: £537,000).

Notes forming part of the financial statements for the year ended 31 March 2020 *(continued)*

20 Note supporting statement of cash flows

Non-cash transactions from financing activities are shown in the reconciliation of liabilities from financing transactions:

	Non-current loans and borrowings £'000	Current loans and borrowings £'000	Total £'000
At 1 April 2019	29,432	325	29,757
