**Notes to the Financial Statements**  
**For The Year Ended 31 January 2021**

**1. Accounting Policies**

**1.1. Basis of Preparation of Financial Statements**

The financial statements are prepared under the historical cost convention and in accordance with the FRS 102 Section 1A Small Entities - The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006.

**1.2. Turnover**

Turnover is measured at the fair value of the consideration received or receivable, net of value added taxes. Turnover includes revenue earned from the provision of services and is recognised at the point of invoice. If the provision of services spans the financial year end, it is measured by reviewing the actual services performed against the total services to be provided and is only recognised if it can be estimated reliably.

**1.3. Tangible Fixed Assets and Depreciation**

Tangible fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is provided at rates calculated to write off the cost of the fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Office equipment	33% straight line
------------------	-------------------

**1.4. Financial Instruments**

Debtors and creditors which are due within one year are recorded at transaction price, less any impairment.

**1.5. Taxation**

The taxation expense represents the sum of the tax currently payable and deferred tax. Current or deferred tax for the year is recognised in profit or loss, except when they related to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax is also recognised in other comprehensive income or directly in equity respectively.

**Current tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the profit and loss account because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

**Deferred tax**

Deferred tax has not been recognised as it is not material to the financial statements. The director will review this annually.

**1.6. Pensions**

The company operates a defined pension contribution scheme. Contributions are charged to the profit and loss account as they become payable in accordance with the rules of the scheme.

**1.7. Government Grant**

Government grants are recognised in the profit and loss account in an appropriate manner that matches them with the expenditure towards which they are intended to contribute.

Grants for immediate financial support or to cover costs already incurred are recognised immediately in the profit and loss account. Grants towards general activities of the entity over a specific period are recognised in the profit and loss account over that period.

Grants towards fixed assets are recognised over the expected useful lives of the related assets and are treated as deferred income and released to the profit and loss account over the useful life of the asset concerned.

All grants in the profit and loss account are recognised when all conditions for receipt have been complied with.

**7. Directors Advances, Credits and Guarantees**

Included within Debtors are loans to director. The balance at the year end was £16,508 (2020 : £3,872).

Interest was charged on the loan at a rate of 2.25% & 2.5% and is repayable on demand.

**8. Prior year adjustment**

During the year, the director noticed that dividends had been overstated by £31,753, these were personal withdrawals. As this is material the financial statements have been updated. This has had no effect on corporation tax.
