For the financial year ending 30 August 2020 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476; and
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These financial statements have been prepared in accordance with the special provisions relating to companies subject to the small companies regime within Part 15 of the Companies Act 2006.

These financial statements have been delivered in accordance with the provisions applicable to companies subject to the small companies regime and the option not to file the Income Statement has been taken.

Approved and authorised by the Board on 11 August 2021 and signed on its behalf by:

.....

Mr D J Morris
Director

Integrated MEP Limited

Notes to the Unaudited Financial Statements for the Year Ended 30 August 2020

1 General information

The company is a private company limited by share capital, incorporated in England.

The address of its registered office is:

Imperial Buildings
20 - 22 Bull Ring
High Street
Northwich
Cheshire
CW9 5BU
England

These financial statements were authorised for issue by the Board on 11 August 2021.

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements for the year ended 30 August 2020 comply with FRS 102 Section 1A for small entities.

Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

Going concern

Due to the current unprecedented market and economic conditions in the U.K. and internationally, the expected impact of the COVID-19 pandemic on the Company's operations cannot be reasonably estimated. Revenue may fall as customers are hit by the pandemic, but expenses will, likely, decrease as a result which will help to mitigate the impact on profits and the company has sufficient reserves in place to cover any deficit for at least 12 months from the date of approval of these financial statements.

Revenue recognition

Turnover comprises the fair value of the consideration received or receivable for the sale of goods and provision of services in the ordinary course of the company's activities. Turnover is shown net of sales/value added tax, returns, rebates and discounts.

When goods and services are being supplied to customers under long term contract, income is recognised as a percentage completion of the contract. The differences between amounts credited to turnover by this method and stage payments received or receivable, after providing for costs to completion where applicable, is shown in the statement of financial position as amounts recoverable on contracts (debtors) or payments received on account of contracts (creditors).

In respect of long term contracts and contracts for ongoing services, turnover represents the value of work done in the year, including estimates of amounts not invoiced. Turnover in respect of long term contracts and contracts for ongoing services is recognised by reference to the stage of completion.

Integrated MEP Limited

Notes to the Unaudited Financial Statements for the Year Ended 30 August 2020

Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred tax is recognised in respect of all timing differences between taxable profits and profits reported in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference.

Tangible assets

Tangible assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Asset class	Depreciation method and rate
Motor vehicles	25% straight line
Equipment	25% straight line

Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the first-in, first-out (FIFO) method.

The cost of finished goods and work in progress comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. At each reporting date, stocks are assessed for impairment. If stocks are impaired, the carrying amount is reduced to its selling price less costs to complete and sell; the impairment loss is recognised immediately in profit or loss.

Defined contribution pension obligation

A defined contribution plan is a pension plan under which fixed contributions are paid into a pension fund and the company has no legal or constructive obligation to pay further contributions even if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Contributions to defined contribution plans are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as a prepayment.

Financial instruments

Classification

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the income statement

3 Staff numbers

The average number of persons employed by the company (including directors) during the year, was 5 (2019 - 5).

4 Tangible assets

	Furniture, fittings and equipment £	Motor vehicles £	Total £
