The financial statements have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies regime.

In accordance with Section 444 of the Companies Act 2006, the Income Statement has not been delivered.

The financial statements were approved by the Board of Directors and authorised for issue on 22 December 2021 and were signed on its behalf by:

T J Fung - Director

Notes to the Financial Statements  
for the Year Ended 30 June 2020

**1. STATUTORY INFORMATION**

The company is a private company limited by share capital, incorporated in United Kingdom.

The address of its registered office is:

3 The Courtyard  
Timothys Bridge Road  
Stratford-Upon-Avon  
England  
CV37 9NP  
United Kingdom

The principal place of business is:

Huckletree Shoreditch  
Alphabeta  
Finsbury Square  
EC2A 1AH

**2. STATEMENT OF COMPLIANCE**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006.

**3. ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

These financial statements are prepared in Sterling, which is the functional currency of the company. All monetary amounts are rounded to the nearest £.

**Summary of significant accounting policies and key accounting estimates**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

**Going Concern**

The financial statements have been prepared on a going concern basis.

**Significant judgements and estimates**

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

Notes to the Financial Statements - continued  
for the Year Ended 30 June 2020

**3. ACCOUNTING POLICIES - continued**

**Revenue recognition**

The company recognises turnover as follows:

Turnover is recognised at an amount that reflects the consideration to which the company is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the company: identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises turnover when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby turnover will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative turnover recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are recognised as unclaimed customer credits and contract liabilities.

The company's turnover is comprised of service fee revenue. The service fee is charged to the tasker and is a percentage of the task value of the contract formed between the company, customer and tasker calculated at task completion. The company has one integrated performance obligation in relation to service fee revenue which is considered satisfied when its overall end-to-end service offerings to the customer is delivered upon task completion. The service offerings available to the company's customers are listed below:

- initial connection between the customer and tasker at task assignment when a contract is formed between the company, customer and tasker and the transaction price is determined;
- the facilitation of secure payments between the customer and tasker by the escrow of the transaction price upon task assignment and the disbursement to the tasker on task completion; and
- the provision of other services on the company's platform such as customer support, insurance and mechanisms for messaging and feedback.

From the customer's perspective, the company's promised distinct services are only transferred to the customer on task completion and it is at this point in time in which the performance obligation is satisfied and service fee revenue is recognised.

**Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Notes to the Financial Statements - continued  
for the Year Ended 30 June 2020

3. **ACCOUNTING POLICIES - continued**

**Trade creditors**

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the company does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities. Trade creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

**Financial instruments**

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's statement of financial position when the company becomes party to the contractual provisions of the instrument.

Financial assets are classified into specified categories. The classification depends on the nature and purpose of the financial assets and is determined at the time of recognition.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

**Basic Financial Assets**

Basic financial assets which include trade and other receivables and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Notes to the Financial Statements - continued  
for the Year Ended 30 June 2020

3. **ACCOUNTING POLICIES - continued**

**Other Financial Assets**

Other financial assets, including investments in equity instruments which are not subsidiaries, associates or joint ventures, are initially measured at fair value, which is normally the transaction price. Such assets are subsequently carried at fair value and the changes in fair value are recognised in profit or loss, except that investments in equity instruments that are not publicly traded and whose fair values cannot be measured reliably are measured at cost less impairment.

**Classification of Financial Liabilities**

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Basic financial liabilities, including trade and other payables, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Debt Instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

**Other Financial Liabilities**

Derivatives, including interest rate swaps and forward foreign exchange contracts, are not basic financial instruments.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Changes in the fair value of derivatives are recognised in profit or loss in finance costs or finance income as appropriate, unless hedge accounting is applied and the hedge is a cash flow hedge.

**Derecognition of Financial Liabilities**

Financial liabilities are derecognised when the company's contractual obligations expire or are discharged or cancelled.

**Intangible assets**

Intangible assets are initially measured at cost. Patents and trademarks have indefinite useful lives and are not amortised; they are subsequently measured at cost less any impairment.

Notes to the Financial Statements - continued  
for the Year Ended 30 June 2020

3. **ACCOUNTING POLICIES - continued**

**Taxation**

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**Hire purchase and leasing commitments**

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

**Pension costs and other post-retirement benefits**

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

4. **EMPLOYEES AND DIRECTORS**

The average number of employees during the year was 2 (2019 - 7) .

5. **AUDITORS' REMUNERATION**

**10. DISCLOSURE UNDER SECTION 444(5B) OF THE COMPANIES ACT 2006**

The Report of the Auditors was unqualified.

Martin Cox FCA (Senior Statutory Auditor)  
for and on behalf of MCA Banbury Ltd

Notes to the Financial Statements - continued  
for the Year Ended 30 June 2020

**11. PARENT AND ULTIMATE PARENT UNDERTAKING**

The company has taken advantage of exemption, under the terms of Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', not to disclose related party transactions with wholly owned subsidiaries within the group.

**12. ULTIMATE CONTROLLING PARTY**

The ultimate parent is Airtasker Ltd, incorporated in Australia, whose Principal Place of Business is Level 3, 71 York Street, Sydney NSW 2000, Australia.

**13. GOING CONCERN**

The financial statements have been prepared on the going concern basis, which may not be appropriate as the company has incurred net losses of £68,898 (2019 - £2,858,569), and reported net liabilities of £4,088,764 (2019 - £4,019,866).

The validity of which is dependent upon the continued support of the company's parent, Airtasker Ltd, to ensure adequate facilities are available for the company to discharge its liabilities as they fall due. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that, this support will continue indefinitely, although at the date of approval of these financial statements, the company's parent undertaking has confirmed that the necessary support will be made available for the foreseeable future.

Based on this, the directors believe that it remains appropriate to prepare financial statements on a going concern basis. The financial statements do not include any adjustments which would result from the basis of preparation being inappropriate.

This document was delivered using electronic communications and authenticated in accordance with the registrar's rules relating to electronic form, authentication and manner of delivery under section 1072 of the Companies Act 2006.
