NOTES TO THE FINANCIAL STATEMENTS
for the period 16 September 2020 to 30 September 2021

1. STATUTORY INFORMATION

Bjarni Baby Ltd is a private company, limited by shares, registered in England and Wales. The company's registered number, business address and registered office address can be found on the company information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Going concern

The financial statements have been prepared on the going concern basis. This basis assumes that the company will have sufficient funding to enable it to continue to operate for the foreseeable future with the support of the director, who believes that the going concern basis of preparation remains appropriate in the company's circumstances.

Turnover

Turnover is measured at the fair value of the consideration receivable and net of discounts. Turnover includes revenue earned from the sale of goods. Turnover from the sale of goods is recognised when the significant risks and rewards of ownership of goods have transferred to the buyer.

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the first in first out method. The carrying amount of stock sold is recognised as an expense in the period in which the related revenue is recognised.

Taxation

Taxation for the period comprises current and deferred tax. Tax is recognised in the Profit & Loss Account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
