- 28 4 Convocation shall be made in the manner stated in Article 36

#### **Article 29 Waiver of formalities.**

As long as the entire issued capital is represented at a general meeting of shareholders valid resolutions can be adopted on all subjects brought up for discussion, even if the formalities prescribed by law or by the articles of association for the convocation and holding of meetings have not been complied with, provided such resolutions are adopted unanimously and each person with DRH-rights is present or represented

#### **Article 30 Place of meetings**

The general meetings of shareholders shall be held in the municipality in which the company has its official seat according to these articles of association or in the municipality Rotterdam or in the municipality Haarlemmermeer (Schiphol Airport)

#### **Article 31 Chairman.**

The general meeting shall itself choose its chairman. Until that moment a member of the management board shall act as chairman and in the absence of such a member the eldest person present at the meeting shall act as chairman

#### **Article 32 Minutes Records.**

- 32 1 Minutes shall be kept of the proceedings at every general meeting of shareholders by a secretary to be designated by the chairman. The minutes shall be adopted by the chairman and the secretary and shall be signed by them as evidence thereof.
- 32 2 The chairman or the person who has convened the meeting may determine that notarial minutes shall be drawn up of the proceedings of the meeting. The notarial minutes shall be co-signed by the chairman.
- 32 3 The management board keeps a record of the resolutions made. If the management board is not represented at a meeting, the chairman of the meeting shall provide the management board with a transcript of the resolutions made as soon as possible after the meeting. The records shall be deposited at the offices of the company for inspection by the shareholders and the persons with DRH-rights. Upon request each of them shall be provided with a copy or an extract of such record at not more than the actual costs.

#### **Article 33 Rights at meetings Admittance**

- 33 1 Each shareholder and each person with DRH-rights shall be entitled to attend the general meeting of shareholders, to address the meeting and, if the voting rights have accrued to him, to exercise his voting rights.
- 33 2 Each share confers the right to cast one vote.
- 33 3 Each shareholder and each person with DRH-rights or their proxy shall sign the attendance list.
- 33 4 The right to take part in the meeting in accordance with Article 33 1 hereof may be exercised by a proxy authorized in writing. The expression in writing shall include any message transmitted by current means of communication and received in writing.
- 33 5 The members of the management board shall, as such, have the right to advise the general meeting of shareholders.
- 33 6 The general meeting shall decide on the admittance of persons other than those mentioned above in this Article 33.

#### **Article 34 Votes.**

- 34.1 To the extent that neither the law nor these articles of association require a qualified majority, all resolutions shall be adopted by a majority of the votes cast.
  - 34 2 If in an election of persons a majority is not obtained, a second free vote shall be taken. If again a majority is not obtained, further votes shall be taken until either one person obtains a majority or the election is between two persons only, both of whom receive an equal number of votes. In the event of such further elections (not including the second free vote), each election shall be between the persons who participated in the preceding election, but with the exclusion of the person who received the smallest number of votes in that preceding election. If in a preceding election more than one person receives the smallest number of votes, it shall be decided by lot which of these persons
-

should not participate in the new election. If votes are equal in an election between two persons, it shall be decided by lot who is elected.

34 3 If there is a tie of votes in a vote other than a vote for the election of persons, the proposal is thus rejected.

34 4 Votes need not be held in writing. The chairman is however entitled to decide a vote by a secret ballot. If it concerns an election of persons, also a person present at the meeting and entitled to vote can demand a vote by a secret ballot. Voting by secret ballot shall take place by means of secret, unsigned ballot papers.

34 5 Abstentions and invalid votes shall not be counted as votes.

34 6 Voting by acclamation shall be possible if none of the persons present and entitled to vote objects against it.

34 7 The chairman's decision at the meeting on the result of a vote shall be final and conclusive. The same shall apply to the contents of an adopted resolution insofar as the same arises out of an unwritten proposal. If, however, the correctness of that decision is challenged immediately after its pronouncement, a new vote shall be taken if either the majority of the persons present and entitled to vote, or, if the original vote was not taken by roll call or in writing, any person present and entitled to vote, so desires. The original vote shall have no legal consequences as a result of the new vote.

#### **Article 35 Resolutions outside of meetings. Records**

35 1 Resolutions of shareholders may also be adopted in writing without recourse to a general meeting of shareholders, provided they are adopted by unanimous vote of all shareholders entitled to vote. The provision of Article 33 4 and Article 33 5 shall correspondingly apply. Adoption of resolutions outside of meetings shall not be permissible if there are persons with DRH-rights.

35 2 The management board shall keep a record of the resolutions thus made. Each of the shareholders must procure that the management board is informed in writing of the resolutions made in accordance with Article 35 1 as soon as possible. The records shall be deposited at the offices of the company for inspection by the shareholders. Upon request each of them shall be provided with a copy or an extract of such record at not more than the actual costs.

### **Chapter X**

#### **Convocation and notification**

#### **Article 36**

All convocations of general meetings of shareholders and all notifications to shareholders and the persons with DRH-rights shall be made by letter mailed to their addresses as shown in the register of shareholders. Instead of through notice letters, any shareholder and person with DRH-rights that gives his consent, may be sent notice of the meeting by means of a legible and reproducible message electronically sent to the address stated by him for that purpose to the company.

## REPORT OF THE DIRECTORS

The directors present their report and the audited annual accounts of GS European Strategic Investment Group B.V. ('the company') for the 57 week period ended 31 December 2009.

### 1. Principal activities

The company's activities involve trading and investing in distressed credits, including loans and bonds, and investing in subordinated performing secured loans

The company's principal business is transacted in the euro and accordingly the company's functional currency is the euro and these financial statements have been prepared in that currency

Although the company is incorporated in the Netherlands, the conduct of the principal activity of the company is carried out through a permanent establishment in the United Kingdom, through which the company pays UK corporation tax on its profits

### 2. Review of business and future developments

During the period the accounting reference date was changed to 31 December to be consistent with the ultimate parent undertaking's year end, which was changed to 31 December. Accordingly, the accounting reference period has been extended to 57 weeks ending 31 December 2009. Consequently, the financial statements have been drawn up for the 57 week period ended 31 December 2009. Comparative information has been presented for the 52 week period ended 28 November 2008

The results for the period are shown in the profit and loss account on page 6. Loss on ordinary activities before taxation for the period was €47.8m (period ended 28 November 2008: profit of €27.0m), which was mainly due to a decrease in the fair value of trading inventory caused by the adverse economic conditions, as explained below. The Company has total assets of €209.4m (28 November 2008: €421.7m).

#### Strategy

The company seeks to maximise returns from its investments

#### Future outlook and risk management

The company's business is materially affected by conditions in the financial markets and general economic conditions. A favourable business environment is typically characterised by, amongst other factors, transparent, liquid and efficient capital markets, low inflation, high business and investor confidence and strong business earnings. During 2009, a number of major economies experienced a recession. Business activity across a wide range of industries and regions was greatly reduced, reflecting a reduction in consumer spending and low levels of liquidity across credit markets. In addition, unemployment continued to rise in 2009.

However, economic conditions became generally more favourable during the second half of the period as real gross domestic product growth turned positive in most major economies and growth in emerging markets improved. In addition, global equity and credit markets were characterised by increasing asset prices, lower volatility and improved liquidity during the last nine months of the period, which is expected to continue into 2010.

The directors consider, based on the current economic environment, that the period end financial position of the company was satisfactory. Having considered future cashflows, the company is able to meet its obligations. No significant change in the company's principal business activity is expected.

The company's risk management objectives and policies, as well as its risks exposure, are described in note 17 of the financial statements.

Cash flows in foreign currencies have been translated at the transaction rate. Income and expenses in respect of interest and taxation on profits are included in the cash flow from operating activities.

### 3. PRINCIPLES OF VALUATION OF ASSETS AND LIABILITIES

- (a) **Accounting convention:** The financial statements have been prepared in accordance with the statutory provisions of Part 9, Book 2, of the Netherlands Civil Code and the firm pronouncements in the Guidelines for Annual Reporting in the Netherlands as issued by the Dutch Accounting Standards Board.
- (b) **Going concern:** Under the amended loan agreement with its principal creditor (see note 16) there are amounts that fall due for repayment within 12 months from the date of approval of the financial statements. The directors have a reasonable expectation that the company, along with fellow group subsidiaries which are party to the loan agreement, have adequate resources to meet the loan covenants and short term operational obligations including loan servicing, management fees, tax and audit fees. For this reason, they continue to adopt the going concern basis in preparing the financial statements.
- (c) **Foreign currencies:** Monetary assets and liabilities denominated in foreign currencies are translated into the euro at rates of exchange ruling at the balance sheet date. Transactions denominated in foreign currencies are translated into the euro at rates of exchange ruling on the date the transaction occurred. Gains and losses on exchange are recognised in operating profit.
- (d) **Trading inventory:** Trading inventory and trading inventory sold, but not yet purchased consists of financial instruments. The trading inventory financial instruments are classified as Held for Trading. The measurement of these financial instruments is initially at fair value, with transaction costs taken to the profit and loss account. Subsequently, their fair value is remeasured, and all gains and losses from changes therein are recognised in the profit and loss account. Derivatives, included in the trading inventory, are also categorised as Held for Trading.

The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between knowledgeable, willing parties, other than in a forced or liquidation sale.

## NOTES TO THE FINANCIAL STATEMENTS – 31 December 2009

### 3. *PRINCIPLES OF VALUATION OF ASSETS AND LIABILITIES (CONTINUED)*

- (c) **Trading inventory (continued):** The fair values of trading instruments are generally obtained from quoted market prices in active markets, broker or dealer price quotations or alternative pricing sources with a reasonable level of price transparency. Where trading instruments trade infrequently and, therefore, have little or no price transparency, and the company is unable to substantiate the significant valuation inputs and assumptions to corroborate market data, the transaction price is used as management's best estimate for fair value at inception. Accordingly, when a pricing model is used to value such an investment, the model is adjusted so that the model value at inception equals the transaction price.

Subsequent to inception, management only changes model inputs and assumptions when corroborated by evidence such as transactions in similar instruments, completed or pending third-party transactions in the underlying investment of comparable entities, subsequent rounds of financing, recapitalisations and other transactions across the capital structure, offerings in the equity or debt capital markets, and changes in financial ratios or cash flows.

- (d) **Debtors:** Debtors are recognised initially at fair value and subsequently measured at amortised cost.
- (e) **Cash and cash equivalents:** The company defines cash and cash equivalents as highly liquid deposits held in the ordinary course of business. Cash and cash equivalents are stated at face value.
- (f) **Long term and current liabilities:** Long term and current liabilities are initially recognised at fair value, net of transaction costs incurred. They are subsequently stated at amortised cost, being the amount received taking account any premium or discount, less transaction costs. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised as interest in the income statement over the period of the liability using the effective interest rate method.
- (g) **Revenue:** The revenue for the period includes all profits arising from the trading operations of the company, including profits and losses arising from changes in fair value on both the purchase and sale of securities and interest accrued thereon. Purchase and sale of securities are accounted for on a trade date basis, with the exception of the changes in accounting policies resulting from the new Guideline 290 'Financial instruments'.
- (h) **Administrative expenses, financial income and financial expense:** Administrative expenses, financial income and financial expense are accounted for on an accruals basis and charged to the profit and loss in the period to which it is related.
- (i) **Comparison with prior year:** The principles of valuation and determination of results have been applied consistently throughout the year.
- (j) **Deferred taxation:** Provision is made for deferred taxation in respect of all differences in timing between the accounting and tax treatments of income and expenses. The timing differences are recognised as deferred tax liabilities or assets, measured at the average tax rates that are expected to apply in periods in which the timing differences are expected to reverse, based on rates and laws that have been enacted or substantially enacted by the balance sheet date. An asset is not recognised if the transfer of economic benefits in the future is uncertain. Deferred tax assets and liabilities are not discounted.
- (k) **Taxation:** Corporation tax is provided on taxable income at current rates applicable to the company's activities. Although the company is incorporated in the Netherlands, the conduct of the principal activity of the company is carried out through a permanent establishment in the United Kingdom, through which the company pays UK corporation tax on its profits. The company is not liable to tax in The Netherlands.

On 10 September 2009 the company, together with fellow group subsidiary undertakings which are party to the loan agreement ("Subsidiaries"), entered into an amended and restated loan agreement and related documents (together the "Agreements") with their principal creditor with a revised maturity of 29 August 2014 and interest accruing at Euribor or Libor plus a spread of 1.91%-2.11%. There are amounts that fall due for repayment within one year, however, the Agreements provide, inter alia, for each of the Subsidiaries to become jointly and severally liable for certain debts owed by each of the Subsidiaries and therefore the loans have been classified as falling due after more than one year.

**NOTES TO THE FINANCIAL STATEMENTS – 31 December 2009**

**16. TAX ON ORDINARY ACTIVITIES (CONTINUED)**

Due to the adoption of Guideline 290 'Financial Instruments' the current period loss is calculated on a fair market value basis. The current period timing differences above relate to prior period adjustments (see note 4).

The company has surrendered the benefit of tax losses to a fellow group undertaking for a consideration of €nil (2008: €16,462,422).

The calculation of the deferred tax asset is based upon an estimated rate at which those timing differences are expected to be recognised in the profit and loss account in future years.

**17. FINANCIAL RISK MANAGEMENT**

The company is exposed to financial risk through its financial assets and liabilities. Due to the nature of the company's business and the assets and liabilities contained within the company's balance sheet the most important components of financial risk the directors consider relevant to the entity are interest rate risk, credit risk, liquidity risk and currency risk.

**(a) Interest rate risk**

Interest rate risks primarily result from exposures to changes in interest rates. The company manages its interest rate risk entering into interest rate derivative contracts as appropriate to the circumstances of the company.

**(b) Credit risk**

Credit risk represents the loss that we would incur if a counterparty or an issuer of securities or other instruments we hold fails to perform under its contractual obligations. Credit risk is managed by reviewing the credit quality of counterparties and reviewing, if applicable, the underlying collateral against which the assets are secured.

**(c) Liquidity risk**

Liquidity is of critical importance to companies in the financial services sector. Accordingly, the company has in place a liquidity policy that is intended to address both company-specific and broader industry or market liquidity events. The company's principal objective is to be able to fund itself and to enable its core business to continue to generate revenue under adverse circumstances and as a result has entered into an arrangement with its principal creditor pursuant to which the company, together with fellow group subsidiary undertakings, is jointly and severally liable for certain debts owed by the others.

**(d) Currency risk**

Foreign exchange risk results from exposures to changes in spot prices, forward prices and volatilities of currency rates. The Company manages its currency risk by establishing economic hedges as appropriate to the circumstances of the Company.

**18. STAFF COSTS**

The company has no employees (2008: nil). All persons involved in the company's operations are employed by group undertakings. The charges made by these group undertakings for all services provided to the company are included in the management fees payable to group undertakings (see note 13).

**19. DIRECTORS EMOLUMENTS**

The directors were paid by another group undertaking, therefore no emoluments are required to be disclosed in the company's annual accounts.

The directors of the company are responsible for the preparation and fair presentation of the financial statements and for the preparation of the Report of the Directors, both in accordance with Part 9 of Book 2 of the Netherlands Civil Code. This responsibility includes, designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error, selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

#### *Auditor's responsibility*

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with Dutch law. This law requires that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
