Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Long term contracts

Long term contracts are assessed on a contract by contract basis and reflected in the profit and loss account by recording turnover and related costs as contract activity progresses. Turnover is ascertained in a manner appropriate to the stage of completion of the contract, and credit taken for profit earned to date when the outcome appropriate to the stage of completion of the contract, and credit taken for profit earned to date when the outcome of the contract can be assessed with reasonable certainty. The amount by which turnover exceeds payments on account is classified as "amounts recoverable on long term contracts" and included in debtors.
